CONTAINS 8 CHILD RESISTANT BAITES

<<optional marketing statements>>

Raid Defence System  
Helps you work smarter, not harder, to fight bugs.  
Visit [raid.ca](http://raid.ca) to identify your bug and best treatment plan.

**TIPS:** Store ant-attractive foods in plastic containers with lids that snap tight. Keep kitchen countertops clean. Sweep or vacuum the floor often, especially around pet dishes. Empty kitchen garbage containers often. Repair and seal as many visible cracks in the foundation and exterior walls of your house as possible. Indoors, caulk along

baseboards, cracks and crevices to keep the ants from passing through your house.

**Use THIS product to: Kill (bugs) at the source:** Use Raid Max® Ant Baits to kill ants where they breed. Avoid placing baits directly on top of surfaces treated with a Raid ATTACK product to make sure ants can bring the bait back to the colony.

(For maximum effectiveness, place all baits at the same time.) (Replace baits more frequently for heavy infestations.)

**Use OTHER Raid products to: Kill (bugs) on Contact:** Use Raid® Ant, Roach & Earwig Insect Killer (16A) (or) (19) (indoors) to kill ants on contact.

Kills a variety of household ants.

Kills ants where they breed

Solve your ant problem

<<Carton label, back panel>>

Raid MAX<sup>®</sup> Ant Baits are guaranteed to work. To keep ants from returning, replace all baits every 3 months.

**DIRECTIONS:**

1. Separate bait stations before placement
2. For thorough ant control, all baits must be used at one time. FOR LARGER KITCHENS or PARTICULARLY HEAVY INFESTATIONS, we strongly recommend using additional baits and placing at least 12-15 baits in the kitchen and 2-4 in each bathroom. If you see ants in other areas, such as the bedroom or utility room, use 2-4 additional baits.
3. Place baits wherever ants are seen: by ant trails, household entrypoints or wherever ants are numerous, next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. For indoor use only.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Do not remove bait from station. Avoid contamination of food and feed. Do not place directly over food, utensils, dishes or food preparation surfaces.

**FIRST AID:** IF SWALLOWED Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:** Do not re-use empty container. Wrap and dispose of empty carton and used bait stations with household garbage.
