DIRECTIONS: SHAKE WELL BEFORE USING. Hold can upright while spraying.

OUTDOOR YARD USE: Provides a fogging action over a large area and kills flies, mosquitoes, small flying moths, wasps & hornets. For best results spray when air is calm and temperature is under 30° C. Allow fog to drift over area. Direct spray towards bushes or grass from at least 1.5 to 2 metres away. Because insects may move in from other areas, treat an area larger than you plan to use. Repeat as necessary.

FOR USE IN GARAGES & COVERED SCREENED PATIOS: Direct spray towards ceiling or rafters using a sweeping motion. Apply 6-10 seconds burst per 30 m³ of space. Keep garage closed for 15 minutes. Vacate for at least 15 minutes after each treatment and aerate before re-entering.

TO KILL HOUSE PESTS: Crawling Insects: Ants, Spiders, Crickets, Cockroaches, Carpet Beetles, Centipedes and Silverfish. Spray hiding places such as baseboards, moist areas, openings around sinks, drains and pipes, behind cabinets and storage areas. Spray ant trails, around door sills, window frames, or in ant nests. Insects must be hit to be killed.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50° C. Cover fish bowls and remove pets for one hour when spraying rooms. In homes or dwellings, remove or cover all exposed foods and cooking utensils before spraying. Avoid contact with skin, eyes, clothing. Avoid inhalation of spray. Wash after using. Keep from freezing. Do not use on maidenhair ferns. Do not use on vegetable crops.

DISPOSAL: When container is empty, press button to release all pressure then dispose in household garbage. Do not puncture or incinerate.

FIRST AID: **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and P.C.P. Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.
