[Graphics and subtitles will be added to final printed labeling]

**DIRECTIONS FOR USE:** Alleviates the annoyance from mosquitoes by repelling and killing mosquitoes and reducing the number of bites in an area up to 4.5 metres from the product (as large as an average-size deck or patio) for up to four hours. Effect is **not** immediate. For best results, allow 30 minutes for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, porches, patios and yards. Use one lantern per each 21.0 square metres (an area 4.5 x 4.5 metres or 15' x 15'). Use more lanterns in larger areas, spacing them to ensure adequate coverage. Wind, heat or humidity may affect the performance of this product. Lantern and mat effectiveness may be diminished if exposed to rain. Automatic shut-off switch if lantern tips or is lifted. No messy wax to drip or spill. Lantern glows in continuously changing colours as it repels and kills mosquitoes. Simply turn lantern on, push the button and enjoy the outdoors with protection from mosquitoes for up to 4 hours per mat.

1. Hold the lantern upside down and remove the battery cover. Install 4 AA size batteries (included), making sure they are placed in the directions indicated. Replace battery cover making sure it snaps into place.
2. Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
3. With globe in the OFF position, insert the mat under the grill at the top of the lantern.
4. Remove the butane cartridge cap.
5. Screw cartridge into the opening of the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
6. If desired, turn on the colour lights by pushing the switch on the bottom of the lantern to 'ON'. The lantern may be used with or without the colour lights. The flame must be lit for the lantern to repel and kill mosquitoes.
7. Place the lantern on a flat stable area. Rotate the globe clockwise to the maximum setting. The gas will begin to flow.
8. Wait approximately 5 to 10 seconds then depress the start button three to five times in rapid succession.
9. Verify the lantern is operating (lantern will glow). If the lantern fails to glow, check to make sure the lantern is turned on and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, turn lantern off and replace the cartridge, repeating steps 4 through 9.
10. Adjust the light and the rate at which the repellent and butane are used by turning the globe.
11. When finished using the lantern, rotate the globe to the OFF position and push the switch on the bottom of the lantern to 'OFF'. Allow the lantern to completely cool before storing.
12. To replace a used mat, turn off lantern and allow to completely cool. Push the used mat out by inserting a fresh mat.

Each mat lasts up to 4 hours and each ThermaCELL® butane cartridge lasts up to 12 hours. Mats and butane cartridges may be exhausted faster at the highest setting. Check mats routinely to ensure that the active ingredient in the mat has not been exhausted. Mat turns from pale blue to white when the active ingredient has been exhausted. Some visible vapour will appear during use. This is normal and no cause for concern. Batteries (included) for the colour feature last up to 150 hours.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if inhaled. Avoid breathing vapours. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the lantern is in use. The grill is hot while in use. Do not insert anything other than ThermaCELL® mats into the lantern. Place lantern on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the lantern is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store lantern and butane cartridges in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food.

Cartridge contains flammable butane. Do not use near sparks or open flames. Do not insert anything other than the mats in the grill. Do not allow mat to come into contact with other substances. Cartridges contain pressurized butane. Protect the butane cartridges from sunlight. Do not expose them to temperatures above 50°C (120°F). Do not pierce, break or incinerate butane cartridges, even after use. Butane cartridges other than ThermaCELL® cartridges will not work in this lantern. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**FIRST AID:** If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20

minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or

doctor for treatment advice. Take appliance, label or product name and PCP Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**STORAGE:** DO NOT contaminate food/feed by storage.

**DISPOSAL:** Do not reuse empty envelopes. Wrap used mats and butane cartridges and place in household trash. Do not incinerate cartridges. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

#### ThermaCELL® Butane Cartridge & Mats

If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the appliance vertically and looking at the fuel gauge on the bottom. You can see the amount of butane in the cartridge. Replace if empty.

Each mat lasts up to 4 hours and each ThermaCELL® butane cartridge lasts up to 12 hours. Mats and butane cartridges may be exhausted faster in lanterns at the highest setting. Check mats routinely to ensure that the active ingredient in the mat has not been exhausted. Mat turns from pale blue to white when the active ingredient has been exhausted.

[Graphics and subtitles may be added to final printed labeling]

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS.** Harmful if inhaled. Avoid breathing vapors. For outdoor use only to kill and repel mosquitoes. Adjust light by turning globe.</li> <li>6. When finished using lantern, rotate globe to OFF position.</li> <li>7. Allow lantern to completely cool and then store.</li> </ol>

#### ThermaCELL® Butane Cartridge & Mats

If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the appliance vertically and looking at the fuel gauge on the bottom. You can see the amount of butane in the cartridge. Replace if empty.

Each mat lasts up to 4 hours and each ThermaCELL® butane cartridge lasts up to 12 hours. Mats and butane cartridges may be exhausted faster in lanterns at the highest setting. Check mats routinely to ensure that the active ingredient in the mat has not been exhausted. Mat turns from pale blue to white when the active ingredient has been exhausted.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS.** Harmful if inhaled. Avoid breathing vapors. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the appliance is in use. The grill is hot while in use. Do not insert anything other than the mat into the appliance. Place appliance on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the device is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store appliance and butane cartridges in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food.

Cartridge contains flammable butane. Do not use near sparks or open flame. Do not insert anything other than the mats in the grill. Do not allow mat to come into contact with other substances. Cartridges contain pressurized butane. Protect the butane cartridges from sunlight. Do not expose them to temperatures above 50°C (120°F). Do not pierce, break or incinerate butane cartridges, even after use. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**FIRST AID:** If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take appliance, label or product name and PCP Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**STORAGE:** DO NOT contaminate food/feed by storage.

**DISPOSAL:** Do not reuse empty envelopes. Wrap used mats and butane cartridges and place in household trash. Do not incinerate cartridges. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
