# SECONDARY PANEL

## BROMINE TABLETS (POOLS)

When used as directed E-Z Clor Brominating Tablets are effective as a swimming pool water sanitizer.

### PRECAUTIONS:

**KEEP OUT OF REACH OF CHILDREN. IRRITANT.** Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Corrosive. Causes eye damage and skin burns. Skin exposure to dust may cause allergic skin reaction in some individuals. Dust may be harmful or fatal if inhaled. May be harmful or fatal if swallowed. Do not get in eyes, skin or clothing. Wear rubber gloves when handling. Do not swallow. Avoid breathing dust.

### FIRST AID:

**If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLGICAL INFORMATION:** Treat symptomatically.

**STORAGE:** Keep container closed and store in a cool, dry location.

**ENVIRONMENTAL HAZARD:** This product is toxic to fish. Do not discharge where it will drain into lakes, streams, ponds or public water.

**DISPOSAL:** Do not re-use empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of spill, and for clean-up of spills.

### DIRECTIONS FOR USE : weight per tablet: 20g

**WARNING:** Direct tablet contact may cause bleaching of vinyl or painted pool surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

1. Maintain recommended daily levels as determined by testing kit.

Free available bromine: 1.0-3.0 ppm      pH 7.2-7.8

Total alkalinity: 100-120 ppm      Calcium hardness: 200-300 ppm

2. If using an automatic feeding device, fill the chamber(s) with tablets and adjust flow rate, according to manufacturer's recommendations, to maintain proper bromine residual. Adding tablets to the pool's skimmer basket is an alternative bromine feed method. Daily usage should approximate 25g of E-Z Clor Brominating Tablets per 10,000 L of water. NOTE: hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper bromine residuals.

3. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product being employed.
