DIRECTIONS: Alleviates the annoyance from mosquitoes by repelling and killing mosquitoes and reducing the number of bites in an area up to 4.5 metres from the product (as large as an average-size deck or patio) for up to four hours. Effect is **not** immediate. For best results, allow 30 minutes for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, porches, patios, yards and campsites. Use one lantern per each 21.0 square metres (an area 4.5 x 4.5 metres or 15' x 15'). Use more lanterns in larger areas, spacing them to ensure adequate coverage. Wind, heat or humidity may affect the performance of this product. Lantern and mat effectiveness may be diminished if exposed to rain. No messy wax to drip or spill. Lantern provides light and repels and kills mosquitoes. Batteries power the light; heat from the Thermacell cartridge activates the repellent mat and provides mosquito repellency for an area the size of an average deck or campsite for up to 4 hrs per mat.

[To Use the Light Feature:

1. Remove battery cover on the bottom of the lantern. Install [#] [AA] [AAA] -size batteries [(included)] [(not included)], Replace battery cover. The batteries power [#] LED lights and will provide lantern light for a maximum of [#] hours.
2. To turn Lantern light on, push, [slide] the black [switch][button][knob] on the bottom of the lantern to the “ON” position. If lantern light does not turn on, replace batteries. When finished using the light, push [slide] the [switch][button][knob] to the “OFF” position.]

To Use the Mosquito Repellent:

1. Remove one Thermacell® Mosquito Repellent mat from wrapper. Mats last a maximum of 4 hours. Mat turns from pale blue to white when repellent has been exhausted.
2. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening on the bottom of the lantern by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. [Place the lantern on a flat stable area.] To activate the mosquito repellent, grasp the lantern [collar] [base] and rotate [turn] collar to the right until the [indicator] [arrow] [line] points to “ON” [is in the “ON” position.] The gas will begin to flow
5. Wait approximately 5 to 10 seconds then rotate lantern [collar] [base] further to the right until the [indicator] [arrow] [line] points to “START” [is in the “START” position]. You should hear a clicking noise.
6. To verify that the mosquito repellent is activated look at the [circular] [oval] view hole located [on the lantern] [collar] [lid] to the right of the “START” button. An orange light will glow. If there is no orange light, rotate [turn] [indicator] [arrow] [line] back to the “ON” position and repeat rotation to the “START” position two to three times in rapid succession.
7. If there is still no orange light visible in the view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new Thermacell® cartridge. Then repeat steps 4-6.
8. Do not touch the grill; it will be hot after a few minutes. Some visible vapour will appear during use. This is normal and no cause for concern. When finished using the lantern, rotate [turn] the lantern collar to the left until the [indicator] [arrow] [line] [points to “OFF”] [is in the “OFF” position]. Allow the lantern to completely cool before storing.
9. To replace a used mat, make sure [indicator] [arrow] [line] [points to “OFF”] [is in the “OFF” position] and allow lantern grill to cool. Push the used mat out by inserting a fresh mat.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if inhaled. Avoid breathing vapours. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the lantern is in use. The grill is hot while in use. Do not insert anything other than Thermacell® mats into the lantern. Place lantern on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the lantern is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store lantern and butane cartridges in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food.

Cartridge contains flammable butane. Do not use near sparks or open flames. Do not insert anything other than the mats in the grill. Do not allow mat to come into contact with other substances. Cartridges contain pressurized butane. Protect the butane cartridges from sunlight. Do not expose them to temperatures above 50°C (120°F). Do not pierce, break or incinerate butane cartridges, even after

2024-1463
2024-05-24

use. Butane cartridges other than Thermacell® cartridges will not work in this lantern. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

FIRST AID: If Inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillates. Treat symptomatically. Vomiting may cause aspiration pneumonia.

STORAGE: Store this product away from food or feed.

DISPOSAL: Do not reuse empty envelopes. Wrap used mats and butane cartridges and place in household trash. Do not incinerate cartridges. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
