[ICON] Care Today, Benefit Tomorrow™

**Scotts® EcoSense™ PathClear™
Fast Acting Grass & Weed Control Spray**

For non-selective control of broadleaf and grassy weeds in and around the garden

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin, eyes and clothing. Wash immediately after use. Avoid all contact to desirable plants. Overspray or drift will injure contacted foliage. Avoid application to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

STORAGE

Keep from freezing. Store in original container out of reach of children.

DISPOSAL

Do not reuse the empty container. Wrap and dispose of container in household garbage.

DIRECTIONS FOR USE

No dilution or mixing is required. For best results apply in sunny warm weather to actively growing young weeds less than 10 cm tall.

To apply, turn the adjustable nozzle to achieve the desired spray pattern. For most applications, use a coarse spray that can be targeted to uniformly and thoroughly wet only unwanted foliage. Complete coverage is necessary for best results.

Weeds that are mature, dormant or hardened due to moisture stress tend to be more tolerant to herbicide treatments. Retreatment of large weeds and regrowth of perennial weeds will be required.

Only contacted vegetation will be affected. Rainfall or watering within 1 hour of application will reduce degree of control.

READY TO USE

Fast acting formula for non-selective spot treatment of individuals weeds. Visible effects occur after treatment, and actively growing susceptible weeds are controlled within 1-2 days. Leaves no harmful residue in the soil.

Scotts® EcoSense™ PathClear™ Fast Acting Grass & Weed Control Spray is recommended for control of undesirable plants in and around the garden, on patios, sidewalks, driveways, under fences and around established trees and shrubs. Use to edge along driveways, sidewalks and to control weeds in gravel and mulch.

Scotts® EcoSense™ PathClear™ Fast Acting Grass & Weed Control Spray application results in rapid burndown and control of the following annual weeds: common ragweed, chickweed, black medic and lamb's-quarters and topgrowth control of the following perennial weeds: dandelion, plantain (broadleaved and narrowleaved), wild carrot and quackgrass.
