This product takes advantage of mineral deposits of diatoms which have been found useful in reducing crawling insect pest populations in and around the home. The patented manufacturing process of this product combines two food-grade additives, one of which attracts the insects while the other is a digestive ingredient. This formulation usually kills crawling insects within 48 hours from internal and external abrasive action. This fine powder is odour free, does not discolour and is not harmful to animals, fish, fowl or food, when used as directed. Product is effective as long as it is present and can be used indoors or outdoors.

Rate of use: -Dry powder – Lightly coat desired areas using 50 g per 10 square metres. -Spray Application – Apply to point of wetness using 75 g in 1 litre of water per 10 square metres.

DIRECTIONS FOR USE:

Outdoor use: For best results use in areas where dust application cannot be affected by heavy rains or high winds. Effective in controlling slugs, earwigs, sowbugs, beetles, wasps, spiders, ants, crickets, caterpillars, millipedes, and centipedes. Lightly coat areas where insects hide, including around building foundations, window and door sills, patios, porches, along ant trails, around gardens, and under hedges, shrubs and trees. Spray application is recommended for slug control. Do not apply to food crops.

Indoor use: Cockroaches, ants, bedbugs, silverfish, earwigs, crickets, millipedes, centipedes, spiders and grain insects. Lightly coat areas where insects hide, such as cracks, crevices, behind and beneath appliances, cabinets, sinks, garbage cans, pipe and drain openings, attics and basements.

Fleas: Thoroughly dust pet sleeping quarters and surrounding cracks and crevices. Repeat treatment as necessary.

Bedbugs: Disassemble beds and dust frames, joints, mattresses, tufts and seams, floors and baseboards.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Do not use as space spray. Avoid contact with eyes. Wash hands after use.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Wrap empty container and discard in household garbage.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
