INSECTICIDE EAR TAGS

- Season-long control of Horn Flies and Face Flies on Beef Cattle and Dairy Cattle (Lactating and Non-Lactating)
DO NOT use on any other animal.
- No withdrawal time required
[Unique Snap-Lok® collar holds tag securely on brushy pastures]
[Ribbed design for season-long durability]

DIRECTIONS FOR USE

For use on beef cattle and dairy cattle (lactating and non-lactating) to control horn flies and face flies. Apply when flies first appear in spring. For season-long control of horn flies, attach one tag to one ear of each animal. For face flies, attach two tags per animal (one in each ear). DO NOT apply more than once per animal per year. Apply as shown with the Y-TEX two-piece tagging system.

STEP 1: Place female tag under clip. Collar on tag must be pointing away from pin.

2020-08-17

STEP 2: Seat male button firmly on pin, press down and give a slight twist. Disinfect pliers and tags before application.

STEP 3: Position applicator over ear and squeeze the handles together. The ideal position for male stud is between the second and third radial cartilage as shown.

Remove tags one day before slaughter.

PRECAUTIONS - CAUTION

KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes, skin or mouth. Wash thoroughly with soap and water after handling and before eating or smoking. Store in a cool place away from direct sunlight. This pesticide is toxic to fish.

DISPOSAL

Do not dispose of used tags near a source of water. Collect used tags and dispose according to municipal and provincial regulations.

FIRST AID

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Treat symptomatically.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offense under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
