HTH DURATION TABLETS

DOMESTIC

REG. NO. 28363 P.C.P. ACT

KEEP OUT OF REACH OF CHILDREN
READ THE LABEL BEFORE USING

Contamination or improper use may cause fire or explosion. Do not contaminate with any foreign matter, including other spa or pool treatment products. Add only in water. Read all precautions on back label and all first aid statements before use.

ACTIVE INGREDIENT :
Available chlorine present as calcium hypochlorite 46%

DANGER

Net Contents : 34.1 kg [or other sizes]

As a routine sanitizer, the convenient, easy-to-use tablet lasts for days.
Duration tablets are slow-dissolving.
Duration tablets kill bacteria and control algae. They destroy organic contaminants and promote sparkling clean swimming pool water.
Duration tablets contain no cyanuric acid and work in all types of pools.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Innovative Water Care, LLC
1400 Bluegrass Lakes Parkway
Alpharetta, GA 30004
1-800-654-6911

WHY YOU SHOULD USE THIS PRODUCT

Tablets are a slow dissolving product that is easy and convenient to use. This product controls algae, kills bacteria and destroys organic contaminants. These tablets are designed to be used in the skimmer basket and dissolve slowly providing a steady source of available chlorine for complete swimming enjoyment in your pool. For crystal clear pool water, follow our 4 step pool care program: Step 1: Test and adjust pool water balance, Step 2: Chlorinate and clarify, Step 3: Shock treat your pool at least once a week, and Step 4: Add algaecide regularly.

Additional shocking to keep water clean and clear is recommended after:

- Rain and heavy winds
- High number of swimmers
- Increased water temperature
- Increased frequency of pool usage

DIRECTIONS FOR USE:

HOW TO USE:

- One tablet weighs approximately 285 g

WARNING

Direct Tablet Contact may Cause Bleaching of Vinyl or Painted Pool Surfaces

Automatic Feeding Devices Employing These Tablets Must Be Totally Free from Traces of other Pool Sanitizers To Avoid the Probability of an Explosion.

Maintain recommended daily levels as determined by testing kit.

Free available chlorine:	1.0 - 3.0 ppm
pH:	7.2 - 7.8
Total alkalinity:	80 - 120 ppm
Calcium hardness:	200 - 300 ppm

Use HTH Pool Care Products to make adjustments. Follow label directions for each product.

- Use in the skimmer.
- Remove any other chemical or chemical residue from skimmer before adding recommended amount of this product. Failure to do so could result in a chemical reaction or possible explosion.
- Place tablet (s) in the empty skimmer basket.
- Replace with a new tablet (s) as needed.

Initially, superchlorinate pool by adding 220 grams of HTH Duration Tablets per 10,000 litres of pool water. For best results superchlorinate at dusk

Maintain recommended chlorine residual by using 1 tablet of this product per 9,000 Litres of pool water. Add the tablet to the skimmer. If you stabilize your pool using HTH Stabilizer and Conditioner, begin by using 1 tablet of this product per 27,000 Litres of pool water. Use a suitable test kit daily to check free available chlorine residual. Increase or decrease the number of tablets to maintain a free available chlorine residual of 1-3 ppm

FOR FLOATER/FEEDER USE:

Use only in a new floater/feeder or a floater/feeder that has previously contained only this product. Place one tablet per 9,000 litres of pool water in the chamber.

If the floater/feeder is equipped with adjustable chamber, set the openings to allow maximum water flow past the tablets. If you stabilize your pool using HTH Stabilizer and Conditioner, use one tablet per 27,000 litres of pool water.

Test water daily and adjust to maintain 1 to 3 ppm free available chlorine residual. When the tablets are completely dissolved, replace with new capsules as needed.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

Superchlorinate weekly with 220 grams of the HTH Duration Tablets per 10,000 litres of pool water when average daily temperature is 25°C - 32°C. Otherwise, superchlorinate every other week.

For visible algae, superchlorinate using 500 grams of HTH Duration Tablets per 10,000 L of pool water. Heavy algae infestation may require dosages up to 725 grams per 10,000 L. Vacuum pool when dead algae settles.

Note: For outdoor pools, chlorine residual can be protected from destruction by sun's rays by addition of a stabilizer (cyanuric acid).

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.

DANGER: Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protection eyewear, protective clothing and use rubber gloves when handling this product. Use only thoroughly clean, dry utensils when handling. Irritating to nose or throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice.

Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control centre or physician, or going for treatment. Treat symptomatically.

DO NOT use this product with any other chlorinating compound.

DO NOT place in skimmer baskets that contain undissolved material or residue from previously used tablets or sticks.

DO NOT use this product in any floater or feeder which has previously contained other chemicals.

CHEMICAL HAZARDS: DANGER. Strong oxidizing agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other pool treatment products, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

{First sentence of paragraph below for 22.68 kg containers or less, complete paragraph for all other sizes}

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other water. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.

STORAGE & DISPOSAL

- Keep this product dry in its tightly closed container when not in use.
- Store in a cool, dry, well-ventilated area.
- Keep away from heat or open flame.
- Do not reuse empty container.
- Rinse empty container thoroughly with water to dissolve all material and discard container in trash.
- Do not contaminate food or feed by storage or disposal or cleaning of equipment.
- For disposal of a contaminated or decomposing product, see Emergency Handling.
- For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

EMERGENCY HANDLING: In case of contamination or decomposition:

1. Do not reseal container.
2. Immediately remove container to an open and well-ventilated outdoor area by itself.
3. Flood with large amounts of water until the material is dissolved.
4. Dispose of container and any remaining material in an approved landfill area.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
