Squirrel Proof Suet With Chili Treat has been scientifically developed to discourage feeding by squirrels.

USING SQUIRREL PROOF SUET WITH CHILI TREAT:

Squirrels have to taste Squirrel Proof Suet With Chili Treat a few times in order to learn to avoid it. Since squirrels generally live together in groups, it can take several weeks for all the squirrels in your backyard to taste and avoid Squirrel Proof Suet With Chili Treat. Once they learn, however, you will begin to see more birds at your feeder. Placing an alternative food source nearby will help to alter a squirrel's feeding patterns. The irritating effects of chilipeppers are temporary and will not cause any permanent harm.

To learn more about Chili Treat® please visit us at: www.squirrelproof.ca . Forward any comments and questions to info@squirrelproof.ca. We appreciate hearing from you.

Thanks for purchasing Squirrel Proof Products.

DIRECTIONS FOR USE:

This product consists of suet that has been treated to discourage feeding by tree squirrels. This product may be used in yards around homes and other buildings where seeds are placed in feeders or on the ground. If this product is not already pre-packaged in suet cages or nets, place product in suet dispensers, cages or nets. This will prevent squirrels from removing big pieces of the suet without tasting it. Be sure to secure the suet cage, dispenser or net. Replace suet when depleted by birds.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Warning Eye and Skin Irritant. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Wash hands before touching eyes or face and prior to using the washroom.

ENVIRONMENTAL HAZARDS:

DO NOT apply to any body of water.

FIRST AID: IF IN THE EYES: hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **IF ON THE SKIN OR CLOTHING:** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **IF INGESTED:** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store product in a secure container, in a dry place inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Wrap and dispose of empty container with household garbage.
