PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Harmful if swallowed. Avoid contact with skin and eyes.

DO NOT allow adults, children or pets to enter the treated area until dusts have settled.

FIRST AID:

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

WEEKLY CONCENTRATION REQUIRED:

20 GRAMS PER 10,000 LITRES OF WATER

aquarine may be poured directly into the skimmer after a backwash has been performed. For Cartridge filters, dilute in lukewarm water (preferably) prior to pouring it directly into the pool. For easy calculations of quantities required, refer to the table below:

ABOVEGROUND POOLS

4,6 m (15')	20,000 litres	(4,400 imp. gallons)	40 grams per week
5,5 m (18')	28,600 litres	(6,300 imp. gallons)	60 grams per week
6,4 m (21')	39,000 litres	(8,600 imp. gallons)	80 grams per week
7,3 m (24')	51,000 litres	(11,200 imp. gallons)	100 grams per week
8,2 m (27')	64,600 litres	(14,200 imp. gallons)	130 grams per week

IN-GROUND POOLS

4,6m x 9,1m (15' x 30')	63,800 litres	(14,000 imp. gallons)	120 grams per week
4,9m x 9,8m (16' x 32')	72,800 litres	(16,000 imp. gallons)	150 grams per week
5,5m x 11m (18' x 36')	91,000 litres	(20,000 imp. gallons)	180 grams per week

Measure and maintain the recommended residual chlorine, pH, total alkalinity and calcium hardness using an adequate test kit

DIRECTIONS FOR USE

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT apply this product in a way that will contact adults, children or pets, either directly or through drift. Avoid application of this product when winds are gusty..

This easy-to-use product will help increase your pleasure and comfort when you use your pool. You will also save on the maintenance costs by reducing the volume of chlorine used as well as all other chemical maintenance products. It may be used from the start of the season or after the season has started and is harmless even in the presence of high concentrations of chlorine or bromine.

This product will allow you to keep your pool water clean and clear all season long. Using recommended quantities will also help stabilise the pH in your pool water and will prevent the growth of algae.

- When the season starts: According to the quality of your pool water, superchlorinating may be necessary. Use calcium hypochlorite (standard granular chlorine). Follow chlorine manufacturer's instructions on how to use the product.
- All season long, use this product weekly after your backwash.(see table on the container for quantities). Make sure that minimum residual chlorine concentration in your pool remains at all times between 0.8 – 1.0 PPM. This level of chlorine in pool water prevents the growth of bacteria.
- In cases of excessive rain, when the temperature is very hot, or after intensive use of your pool: Adding chlorine may be necessary to maintain the minimum residual chlorine concentration in your pool. You do not need to add more **Aquarine**

CHEMICAL HAZARDS

Do not mix with anything other than water. Any other contamination may cause a chemical reaction, resulting in noxious fumes and heat. Do not mix with any other chemical.

ENVIRONMENTAL HAZARDS

TOXIC to aquatic organisms. Do not dispose of container and/or contents in lakes, rivers or streams.

DISPOSAL

Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on this label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
