PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Do not mix with any other chemical. Avoid contact with skin and eyes. Wear rubber gloves when handling this concentrate.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Keep container closed and store in a cool, well-ventilated area. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DISPOSAL

Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations. For information on the disposal of unused, unwanted product, contact the manufacturer or provincial regulatory agency. Contact the manufacturer or provincial regulatory agency in case of a spill, and for clean-up of spills.

WHY YOU SHOULD USE THIS PRODUCT:

This product when used regularly will prevent the growth of algae. For best results, use with other HTH® pool care products. For crystal clear pool water, follow our 4-step pool care program.

Step 1: Test and balance water

Step 2: Sanitize

Step 3: Shock regularly

Step 4: Add algaecide as directed

DIRECTIONS FOR USE:

Initial dosage: Add 135 mL of **HTH Algae Stop 15** per 10,000 litres of pool water.

Weekly maintenance dosage: Add 70 mL of **HTH Algae Stop 15** per 10,000 litres of pool water.

Visible Algae Dosage: The best way to rid your pool of visible algae is to add a shock treatment or use a higher dosage of **HTH Algae Stop 15**. If using a shock product, superchlorinate following label instructions of shock product employed and wait for at least 24 hours before adding weekly maintenance dosage. If superchlorination is not employed, add 340 mL **HTH Algae Stop 15** per 10,000 litres of pool water.

DO NOT apply when swimmers are in the immediate vicinity (a 15-minute restricted-entry interval is recommended).
