DIRECTIONS FOR USE:

Restrictions: DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. DO NOT apply when people or pets are present. DO NOT allow people or pets to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, animals or sources of electricity. DO NOT apply to furniture, mattresses, linens, toys or clothing. DO NOT apply to overhead areas or in confined spaces (e.g., attics, crawlspaces). Ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air. DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). DO NOT apply as a space spray or broadcast application.

The application of this product to vinyl and aluminum siding (particularly lightly coloured, aged, weathered or otherwise damaged) may result in staining, bleaching or discolouration. Factors such as extreme heat and direct sunlight can promote damage. Before applying to vinyl or aluminum siding, treat a small area and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day. This product may stain or damage certain plastic, rubber and asphalt materials such as tiles, floor coverings and carpets. Apply with caution to surfaces and avoid excessive wetting. Do not apply to draperies, tapestries, wallpaper or similar materials that may stain. For all other surfaces, test a small inconspicuous area of the surface to be treated for colour fastness and staining before full application.

How to apply: Shake well before using. Apply with included trigger sprayer. Apply directly to ants if possible. Apply as a crack and crevice or spot treatment only to control ants. Spot application is localized to a surface area not more than 0.2 m². Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Indoor use:

To control ants, thoroughly treat inside building surfaces, including cracks, crevices in walls, floors and ceilings, along and behind baseboards, around water pipes and tanks, walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units), around sinks, drains and pipes, around garbage containers, around interior foundations, localized area around garbage cans, localized areas of floors and floor coverings, and points of entry (e.g., around windows and doors). Also spray trails and nests. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoor use:

To control ants, use outdoors on the exterior surfaces of buildings and on patios, porches and decks. Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where ants enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. Spray onto ant trails, into ant nests

and at points of entry. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

(Option 1)

INSTRUCTIONS - BATTERY SPRAYER:

EASY SET-UP:

1. Remove sprayer from holder. Gently pull tubing.
2. Remove seal from top of cap. Remove plug from cap.
3. Securely snap the plug on end of tubing into hole on cap.
4. Remove plastic tab to activate batteries.

HOW TO USE:

- A. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- B. Aim toward target pests and away from people and pets.
- C. Press the trigger to spray.

AFTER USE:

1. Twist nozzle to CLOSE position.
2. Secure sprayer upright in holder.

Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.

(Option 2)

INSTRUCTIONS – BATTERY SPRAYER:

EASY SET-UP:

1. Remove sprayer from holder. Remove and discard plastic wrap. Gently pull hose tip to completely extend tubing.
2. Open the flip-top cap.
3. Place hose tip into opening of cap. Orient the finger tab opposite of hinge in order to insert. Snap connector into place.
4. Remove plastic tab to activate batteries.

HOW TO USE:

- A. Rotate finger tab of hose tip to “Open” position.
- B. Twist sprayer nozzle from CLOSE to SPRAY or STREAM.
- C. Hold sprayer below the level of the container and prime by pumping trigger several times until product is dispensed.
- D. Press the trigger to spray.

AFTER USE:

1. Twist nozzle to CLOSE (X) position.
2. Rotate finger tab of hose tip to “CLOSED” position.
3. DO NOT disconnect hose.
4. Return sprayer to its slot. Hose can be pushed back into sprayer handle.

Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.

(Option 3)

INSTRUCTIONS - BATTERY SPRAY WAND:

EASY SET-UP:

1. Remove spray wand from holder. Remove wrap from coiled hose. Remove protective battery strip from handle.
2. Remove sticker and cap cover before inserting hose plug.
3. Connect hose to cap by inserting plug at end of coiled hose into hole on cap and push firmly until secure.

HOW TO USE:

- A. Open spray wand until fully extended. Adjust spray nozzle to desired setting.
- B. Slide ON/OFF switch to ON position.
- C. Aim toward target pests and away from people and pets.
- D. Squeeze trigger to dispense product. Sprayer may require a couple seconds to prime before product is released.

AFTER USE:

1. Slide ON/OFF switch to OFF position.
2. Do not unplug hose. Leave connected to cap.
3. Turn spray nozzle to the closed position.
4. Fold spray nozzle down against handle.
5. Return spray wand to holder.

Failure to adjust nozzle completely to closed position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.

[OPTIONAL TEXT IN BRACKETS]

[To replace batteries:

1. Slide battery compartment door to unlatch and open.
2. Remove used batteries and insert new AA batteries in correct positions as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. Always use a complete set of new batteries of the same type when replacing batteries. *Never* mix alkaline, carbon-zinc or rechargeable batteries.
3. Securely close battery compartment door.]

Additional Operating Notes:

- Do not submerge in water.
- Before each use, inspect sprayer carefully. Make sure hose is flexible and not kinked, worn or cracked, and that all connections are tight.
- Remove batteries when storing sprayer for prolonged periods.
- Sprayer is to be used only for this product.
- *Always* follow manufacturer's recommendations for use and disposal of batteries

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS. Wash thoroughly after handling. and before smoking or eating. Remove pets and birds, and cover fish aquariums before surface applications.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms, birds, bees and beneficial insects.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store this product away from food and feed.

DISPOSAL: DO NOT reuse the empty container. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Remove batteries and dispose of accordingly.

GENERAL INFORMATION: *Permethrin is a synthetic version of pyrethrins. Pyrethrins have long been known for rapid knockdown of insects. Although permethrin is more stable than pyrethrins, it is still degraded by the ultraviolet rays of the sun. This results in a relatively short residual life in the presence of sunlight. When protected from the sun, permethrin will provide residual/long-lasting activity.*
