DIRECTIONS FOR USE

General Information: Permethrin is a synthetic version of pyrethrins. Pyrethrins have long been known for rapid killing of insects. Although permethrin is more stable than pyrethrins, it is still degraded by the ultraviolet rays of the sun. This results in a relatively short residual life in the presence of sunlight. When protected from the sun, permethrin will provide residual/long lasting activity.

KNOCK DOWN Professional Crawling Insect Killer KD100P is ready to use. Within the specified use location, to enhance effectiveness of this product, apply this product directly to the Ants, Bed Bugs, Cockroaches, Earwigs, Spiders, Sowbugs, Silverfish, Dog and Cat Fleas, Brown Dog Ticks.

Restrictions: DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. DO NOT apply when people or pets or livestock are present. DO NOT allow people or pets or livestock to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, pests, livestock and sources of electricity. DO NOT apply to furniture (excluding bookcases and storage furniture), mattresses, linens, toys or clothing. DO NOT apply to overhead areas or in confined spaces (for example, attics, crawlspaces, small storage rooms, closets). Ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air. When applied outdoors on the exterior surfaces of structures, DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, and herbs).

How to Apply: DO NOT apply as a space spray or broadcast application. Apply as a crack and crevice or spot treatment only. Spot treatment is localized to surface area not more than 0.2 m². Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Instructions for inside buildings:

To Kill Ants, Cockroaches, Earwigs, Sowbugs, Spiders, Silverfish: Thoroughly treat inside building surfaces, including cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around sinks, drains and pipes; around garbage containers; around interior foundations; localized area around garbage cans; localized areas of floors and floor coverings and points of entry (e.g., around windows and doors). For silverfish, also spray the cracks and crevices in bookcases. Remove all objects before treatment of bookcases where books, clothing, toys, towels and other items are stored. Treated bookcases must be dry before replacing stored items. For ants, also spray trails and nests. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Kill House Flies: Spot treatment only. Spray inside building surfaces around points of entry (e.g., screen frames, doors and window frames), around light fixtures and to localized areas of walls, floors and ceilings. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Kill Fleas And Brown Dog Ticks: DO NOT apply to furniture, mattresses, linens, toys or clothing. Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. Pet bedding may be entirely treated with this product or replaced with clean, fresh bedding after other listed areas are treated. Treatment must only be repeated after 7 days if pest problem persists or reoccurs. DO NOT spray pets with this product. Only treat pets with products specifically registered for use on that type of pet. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area.

To Kill Bed Bugs: DO NOT apply to the mattress, headboard, footboard or furniture. Apply to inside building surfaces, cracks and crevices in the walls, floors and ceilings; along and behind baseboards and moldings; and localized areas of walls behind and floors beneath furniture (e.g., bed and nightstand). To enhance effectiveness of this product, apply this product directly to bed bugs where possible. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoors on the exterior surfaces of buildings and patios, porches, and decks:

To Kill Ants, Fleas, House flies, Sowbugs, Spiders and Brown Dog Ticks: For use outdoors on the exterior surfaces of buildings and on patios, porches and decks. Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where listed pests enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. For house flies, apply as a spot treatment only. For ants, spray onto ant trails, into ant nests and points of entry. For spiders, apply the exterior surfaces of buildings and on patios, porches and decks including under eaves, awnings and canopies. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

GENERAL DIRECTIONS

Continuous cockroach killing action for 60 days. Shake can well before using. Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices for insect control.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Do not use as a space spray. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C. Cover fish bowls and remove pets for one hour when spraying rooms. In homes or dwellings, remove or cover all exposed foods and cooking utensils before spraying. After use, wash all surfaces that may contact food. Avoid contact with skin, eyes, and clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

ENVIRONMENTAL PRECAUTIONS

Toxic to aquatic organisms. Toxic to birds. Toxic to bees. Toxic to beneficial insects.

DISPOSAL

When container is empty, press button to release all pressure then wrap container and dispose in household garbage. Do not puncture or incinerate.

FIRST AID

Take container, label, or product name and PCP registration number with you when seeking medical attention.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15– 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

TOXICOLOGICAL INFORMATION

Treat symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.
