NET CONTENTS: 2 - 30 kg

For best results, use with other HTH® pool care products. For crystal clear pool water, follow our 4 step pool care program. **Step 1: Test and balance water. Step 2: Sanitize. Step 3: Shock regularly. Step 4: Add algaecide as directed.**

DIRECTIONS FOR USE:

Water Balance: Maintain recommended daily levels as determined by a test kit or test strips:

Free available chlorine: 1.0 - 3.0 ppm

pH: 7.2 - 7.8

Total alkalinity: 80 - 120 ppm

Calcium hardness: 200 - 300 ppm

METHOD OF APPLICATION: Best used during evening hours. Add the required dosage of this product with a clean, dry cup or scoop that is used solely for this product. Broadcast the product evenly over a wide area in the deepest part of the pool. Direct contact may cause bleaching of vinyl or painted pool surfaces. Use brush to disperse any granules that settle to the bottom of the pool. Let filter pump run 6 to 8 hours minimum after applying.

DOSAGE:

OPENING YOUR POOL: Follow "SHOCK TREATMENT" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual. Repeat dosage, as needed, until the free available chlorine residual is 1–3 ppm.

ROUTINE CHLORINATION:

Maintain proper chlorine residual between 1- 3 ppm by broadcasting daily over the pool's surface 35 g of this product per 10, 000 L of pool water.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals. For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).

SHOCK TREATMENT: For best results, shock at dusk. Shock treat weekly using 175 g of this product per 10, 000 L of water when average daily temperature is 25 deg C –32 deg C. Otherwise, shock treat every other week or when problem conditions occur such as: high bather loads, hazy water, unpleasant odors, eye irritation or after heavy wind and rainstorms. Do not enter pool until free available chlorine residual is 1-3 ppm.

ALGAE CONTROL: For visible algae, use 350 g per 10,000 L of pool water. Heavy algae infestation may require dosages up to 500 g per 10,000 L. Add this product close to any algae on the sides or bottom of the pool. Immediately, brush surface, then vacuum and cycle through the filter. Repeat as needed. Pool should not be entered until the chlorine residual is 1-3 ppm.

WINTERIZING: While the water is still clear and clean, prepare for long periods of disuse by gradually applying 485 g of this product per 10, 000 L of pool water. Run the filter until dispersion is complete. Cover the pool with a plastic pool cover and prepare heater, pump and filter components for winter by following manufacturer's directions.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. DANGER: Corrosive to skin and eyes. Fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear eye protection, protective clothing and use rubber gloves when handling this product. Use only thoroughly clean, dry utensils when handling. Irritating to nose or throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse. Strong oxidizing agent. Dangerous gas formed when mixed with acid. Do not use this product in any

feeder, floater, skimmer or other dispensing device that has been used with any other product. Do not mix with any other chemical. Do not allow product to contact any foreign matter, including other pool/spa treatment products. Do not allow to become wet or damp before use. Do not add water to this product. Add only into water. Do not mix this product in a small amount of water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gasses and spatter. Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice.

Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

STORAGE: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

<p>EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. If possible, isolate container in an open and well-ventilated area. Flood with volumes of water.</p>
--

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations. For disposal of a contaminated or decomposing product, see Emergency Handling. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
