#### **DIRECTIONS FOR USE**

### FOR OUTDOOR USE TO CONTROL wasps, hornets and yellow jackets IN THEIR NESTS Use Limitations

- DO NOT use inside buildings.
- DO NOT use as a space spray.
- **DO NOT** apply when people or pets are present.
- DO NOT allow people or pets to enter treated areas until sprays have dried.
- DO NOT allow spray to drip or allow drift onto non-target surfaces.
- DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs).

Avoid spraying vegetation and non-target structural surfaces. Hose off any plants or non-target structural surfaces that are contacted with (spray/foam) with water.

- **DO NOT** apply to any body of water.
- **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
- Avoid application of this product when winds are gusty.
- Outdoor application is limited to stinging insect nest treatments. and **DO NOT** apply to vegetation, plants, grass and/or any area accessible to children.
- Toxic to aquatic organisms. Toxic to bees. This product is intended for use on yellow jackets, hornets and
  wasps only. Toxic to beneficial arthropods (which may include predatory and parasitic insects, spiders,
  and mites). Minimize exposure to non-target areas.

The best time to (spray/apply) the product to nests is in late evening or early morning, during cooler temperatures, and when most insects are at rest inside the nest. Observe for little activity around the nest opening. (Spray/Apply) only if the air is still. Stand at a safe distance of 2 to 2.5 m from the nest. **DO NOT** stand directly under the nest. Treated insects may fall out of the nest and die. Hold container upright at arm's length and point the spray nozzle at the nest. First, spray into the opening of the nest. Then spray the rest of the nest until it is saturated. Allow sufficient time for insects to die. Any insects returning to the nest after treatment will be killed. Wait at least 48 hours or until no signs of activity before removing the nest. **DO NOT** exceed 32g per m2 (24 seconds/m2). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

#### **STORAGE**

Contents under pressure. DO NOT store or use above 50 degrees C as container may burst. DO NOT use in presence of open flame or spark. (DO NOT use while smoking). DO NOT puncture or incinerate container. Store this product away from food or feed.

#### **DISPOSAL**

**DO NOT** reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
