SECONDARY PANEL

Use **Total WipeOut® Patio & Garden Weed Control**, a non-selective herbicide, for **spot treatment of individual weeds** in and around the garden, on patios, sidewalks, driveways, in lawns, along fences and around established trees and shrubs, as well as gravel and mulch areas. Fast acting, rapid burn down and control of common ragweed, chickweed, black medic and lamb's quarters. *Top growth control* of dandelion, plantain (broadleaved and narrowleaved), wild carrot and quackgrass. CAUTION: Avoid contacting desirable plants.

[Following 3 bullets - optional placement on primary or secondary panel]

- **EASY TO USE**
Cartridge is ready to use.
Simply insert in SmartOnes® Precision Sprayer.
- **EFFORTLESS**
No mixing required.
Just load 'n spray.
- **BETTER RESULTS**
Control weed problems.
Leaves no harmful residue.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING. For best results, apply in sunny, warm weather to actively growing young weeds less than 10 cm tall. Visible effects after treatment. Actively growing susceptible weeds are controlled within 1-2 days. Leaves no harmful residue in the soil.

No dilution or mixing needed – just load and spray!

- Remove protective cap and retain for storage of unused product.
- To activate, set locking dial to ON. Set to OFF when not in use.
- Insert cartridge upside down in the cone of the SmartOnes® Precision Sprayer.
- Lock handle firmly in place.
- Place the SmartOnes® Precision Sprayer over the weed to be treated.
- Gently push handle down to release the product. Spray covers an area of 8.9 cm (3.5 in) in diameter.

Complete coverage is necessary for best results. Wet only unwanted foliage. Re-apply for large weeds and re-growth of perennial weeds, if required. Weeds that are mature, dormant or hardened due to moisture stress tend to be more tolerant to herbicide treatments. When using to control top growth of dandelions and plantain in lawns, grass that is accidentally contacted will also be burnt but re-growth will occur.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Corrosive to the eye. DO NOT get in eye. Avoid contact with skin and clothing. Wash immediately after use. Avoid all contact with

desirable plants. Avoid application to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces. Do not re-enter or allow entry into the treated area until dry.

FIRST AID: If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: To prevent contamination store this product away from food or feed. Store in original container out of reach of children. Keep from freezing.

DISPOSAL: Do not reuse the empty container. Wrap and dispose of empty cartridge in household garbage.
