Brilliance for Spas Stabilized Chlorinating Mini-Tabs is a form of chlorinating sanitizer for spas and hot tubs. When used as directed, **Brilliance for Spas Stabilized Chlorinating Mini-Tabs** will disinfect spa and hot tub water, keeping it clear and free of odour.

SPA AND HOT TUB DIRECTIONS FOR USE:

WARNING

Direct tablet contact may cause bleaching of vinyl or painted spa surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other spa sanitizers to avoid the probability of an explosion.

Maintain recommended daily levels as determined by testing kit.

Free available chlorine: 3.0-5.0 ppm

pH 7.2-7.8

Total alkalinity: 100-120 ppm

Calcium hardness: 150-200 ppm

For chlorination, **Brilliance for Spas Stabilized Chlorinating Mini-Tabs** should be added to an automatic chlorinator, floating chlorine feeder or spa skimmer to maintain the proper chlorine residual. Maintain proper chlorine residual by adding 10 g of this product per 1,000 L of spa water, daily or as needed. Maintain water circulation at least 1 hour before using. Periodic superchlorination of spa water is recommended. Follow label instructions of superchlorination product being employed.

NOTE: Hot weather, heavy spa usage, and the use of spa bubblers may require higher usage rates to maintain proper chlorine residuals. Persistent foam formation, turbid, or malodorous water are indicators of inadequate sanitizer levels.

For proper sanitation, spa must be completely drained periodically. The number of days between complete spa drainage is equal to the volume of spa water in litres divided by 10 times the maximum number of daily spa users. Refill spa with water and repeat directions for use.

Maximum spa water usage temperature is 40°C. Duration in spa water at 40°C should not exceed 15 minutes.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. CAUTION: Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse. Strong oxidizing agent. Dangerous gas formed when mixed with acid. Use only clean, dry utensils to dispense this product. Do not use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product. Do not mix with any other chemical. Do not allow product to contact any foreign matter, including other water treatment products. Do not allow to become wet or damp before use. Do not add water to this product. Add only into water. Do not mix this product in a small amount of water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gasses and spatter. Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

STORAGE: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available. If not, wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
