DIRECTIONS:

GENERAL INFORMATION:

Permethrin is a synthetic version of pyrethrins. Pyrethrins have long been known for rapid knockdown of insects. Although permethrin is more stable than pyrethrins, it is still degraded by the ultraviolet rays of the sun. This results in a relatively short residual life in the presence of sunlight. When protected from the sun, permethrin will provide residual/long lasting activity.

Restrictions:

- DO NOT apply to any body of water.
- DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
- Avoid application of this product when winds are gusty.
- DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed.
- DO NOT apply when people, pets or livestock are present.
- Cover fish aquariums before surface applications.
- DO NOT allow people, pets or livestock to enter treated areas until sprays have dried.
- DO NOT allow spray to drip or allow drift onto non-target surfaces.
- DO NOT apply to people, pets, livestock or sources of electricity.
- DO NOT apply to furniture, mattresses, linens, toys or clothing.
- When applied indoors, DO NOT apply to overhead areas or in confined spaces (for example, attics, crawlspaces).
- When applied indoors, ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air.
- DO NOT apply to plants grown for food or feed (e.g., vegetables, fruit, herbs) or in areas where these plants are grown. When applied to the exterior surfaces of buildings, garbage cans and on patios, porches and decks, DO NOT treat soil, turf or other plants adjacent to the treatment site.
-

HOW TO APPLY:

Container can be held in any position while spraying, even upside down. DO NOT APPLY AS A SPACE SPRAY OR BROADCAST APPLICATION.

Apply as a crack and crevice or spot treatment only. Spot treatment is localized to surface area not more than 0.2 m². Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

FOR INDOOR USES:

TO KILL SPIDERS:

Thoroughly treat inside building surfaces, including cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath

2018-7184
2020-09-01

appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around sinks, drains and pipes; around garbage containers; around interior foundations; localized area around garbage cans; localized areas of floors and floor coverings and points of entry (e.g., around windows and doors).

Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

FOR OUTDOOR USES:

TO KILL SPIDERS: For use outdoors on the exterior surfaces of buildings and patios, porches and decks.

Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where spiders enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks.

As well, apply the exterior surfaces of buildings and on patios, porches and decks including under eaves, awnings and canopies.

Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat or store at temperatures over 50C. Wash thoroughly after handling and before smoking or eating.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms, birds, bees and beneficial insects.

FIRST AID:

If in eyes: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

DISPOSAL:

When container is empty, press valve to release pressure. Do not puncture or incinerate. Wrap empty container and discard in household garbage.

OPTIONAL MARKETING STATEMENTS

Revolutionary new EcoCan uses the power of air.

EcoCan - the next generation in spray technology.

The EcoCan delivers a quiet spray without using CFCs or hydrocarbon propellants.

Sprays in any direction, even upside down.

Unlike products that utilise the EcoCan, normal aerosol products require that a percentage of propellant be included, the purpose of which is to expel the contents out of the can.

The EcoCan uses air pressure instead of propellant.

The EcoCan has a quiet spray.

The EcoCan sprays this product as a clear water-based solution that is non foamy and non greasy.

Eco Cans do not contain propellant.

Eco Cans do not need or use hydrocarbon propellant.

Eco Cans use newer technology.

Propellants no longer needed if you use the Eco Can.

Able to spray 18 feet (5.5 metres)

Long- lasting activity against brown dog ticks, fleas and spiders.

Residual
