Gives rapid knockdown and kill of Wasps, Yellowjackets, and Hornets
Dielectric Breakdown Voltage: 41.0 KV by ASTM Test Method D-877-87

DIRECTIONS FOR USE

USE ONLY AS DIRECTED ON THIS LABEL
NOT FOR USE INSIDE DWELLINGS

Shake well before using. Hold can upright before spraying.

For Control of Nests of Wasps, Yellowjackets, and Hornets: The best time to spray the nest is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container upright at arms length, point the actuator at the nest and spray into the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed.

Wait 48 hours before removing the nest. Foliage of desirable plants that were contacted with spray should be hosed off.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed or absorbed through skin. Contains petroleum distillate. Do not induce vomiting because of aspiration pneumonia hazard. Do not breathe vapors or spray mist. Causes moderate eye irritation. May irritate skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food and feedstuffs. Do not use in commercial food/feed processing, preparation, food/feed storage or serving areas. This pesticide is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 50° may cause bursting. Wear long sleeved shirt, long pants and chemical-resistant gloves when handling this product.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillate. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL: Do not reuse empty container. When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial regulations. Do not puncture or incinerate. For information on the disposal of unused, unwanted products, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer or the provincial regulatory agency in case of a spill, and for clean-up of spills.

STORAGE: Store in a cool dry area away from heat or open flame.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
