Kills Bees, Wasps, Yellow jackets, and Hornets on Contact

Reaches nests more than 17 feet above ground

DIRECTIONS FOR USE: For the control of wasps, bees, hornets and yellow jackets: Affix the red actuator to the spray canister to apply the product as a jet stream. Point nozzle in direction of the nest. Press the nozzle and completely saturate the nest from a distance of 2 to 2.5 metres. Allow sufficient time for insects to die. Application to nests should be made in late evening or early morning when insects are at rest.

LIMITATIONS: Do not use inside homes, on humans or animals. Do not use as a space spray.

Kills Spiders, Sowbugs, Earwigs, Cockroaches, Crickets, Silverfish, Ants, Fleas, Carpet Beetles, Brown Dog ticks, Cluster Flies and House Flies

DIRECTIONS FOR USE: Affix the white actuator to the spray canister to apply the product as a spray. Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices for insect control. If reinfestations occur, repeat applications as necessary. Provide adequate ventilation after indoor use. **KEEP PETS AND**

CHILDREN AWAY FROM SURFACE UNTIL DRY. **INDOOR USE:** Thoroughly treat cracks and crevices and spots along baseboards, underneath furniture and equipment, around garbage containers, localized areas of floors and floor coverings and other places where insects habitat. For ants, spray trails and places where ants enter premises such as window and door sills. **OUTDOOR USE:** Spot Treatment: Spray outside surfaces of screens, doors, window frames, foundations, patios, light fixtures and other places where insects may alight, or congregate and enter. For ants, spray hills and runways. The cluster flies and house flies will be killed when they land on the treated surfaces.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed, inhaled or absorbed through skin. Provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Avoid breathing spray mist. Wash thoroughly with soap and warm water after using. Do not use on humans, plants or animals. Do not use as a space spray. Cover fish bowls and remove pets for one hour when spraying. Do not use in areas where food is handled, prepared or stored. Remove or cover all exposed foods or cooking utensils before spraying. Do not allow children or pets to contact treated areas until surfaces are thoroughly dry. Do not contaminate food, utensils or animal feeding areas. Toxic to bees, fish and wildlife. Do not contaminate any body of water. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C as container may burst. Do not puncture or incinerate container or spray near open flame or spark, or while smoking. Do not spray asphalt shingles, as this product may stain them. Do not apply this product around equipment due to possibility of shock hazard.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and PCP Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillate. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL: Do not reuse empty container. When container is empty, press valve to release all remaining pressure. Wrap container in several layers of newspaper and discard in garbage.

STORAGE: Store in a cool dry area away from heat..

REVOLUTIONARY NEW Eco Can USES THE POWER OF AIR

The Eco Can delivers a quiet spray without using CFCs or hydrocarbon propellants.

Unlike products that utilise the EcoCan, normal aerosol products require that a percentage of propellant be included, the purpose of which is to expel the contents out of the can.

The Eco Can uses air pressure instead of propellant.

The Eco Can has a quiet spray.

Eco Can - THE NEXT GENERATION IN SPRAY TECHNOLOGY

Eco Cans do not contain propellant.

Eco Cans do not need or use hydrocarbon propellant.

Eco Cans use newer technology.

Propellants no longer needed if you use the Eco Can.

The Eco Can sprays this product as a clear solution.
