DIRECTIONS FOR USE:

BUG-TEK Professional is ready to use. Its special formula is non-staining, and has no conspicuous odour. SHAKE WELL BEFORE USING.

Bug-Tek Professional is to be used at listed structures*:

A) INSIDE BUILDINGS, MODES OF TRANSPORT AND OTHER LISTED STRUCTURES to kill ants, cockroaches, fleas, silverfish, sowbugs, spiders, ticks and house flies;

B) OUTDOORS ON THE EXTERIOR SURFACES OF LISTED STRUCTURES to kill house flies and spiders;

C) ON INDOOR ORNAMENTAL PLANTS to control aphids, thrips, whiteflies and leafhoppers; and

D) ON OUTDOOR ORNAMENTAL PLANT to control aphids, thrips, and leafhoppers.

*For use indoors and outdoors on the exterior surfaces of the following listed structures: homes; schools; hospitals; hotels; motels; preschools, buildings at day camps; spas; commercial, industrial, and office buildings; warehouses; portable toilets and greenhouses (structure only) and seed houses (structure only). For use indoors in food plants (food handling establishments, and packaging & processing plants). ** Also for use inside campers, mobile homes, buses, automobiles, trucks, boxcars, boats and ships.

** : in food/feed handling establishments such as these (that is, places other than private residences in which food/feed is held, processed, prepared or served): Non-Food/Feed Areas of food/feed handling establishments includes garbage rooms, lavatories, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage for canned, bottled or packaged products. Food/feed areas of food/feed handling establishments includes areas of receiving; serving; storing of dry, cold, frozen or raw foods/feed; packaging such as canning, bottling, wrapping and boxing; preparing such as cleaning, slicing, cooking and grinding; storing edible waste and enclosed processing systems such as mills, dairies, edible oils and syrups.

Restrictions:

As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT apply to people, pets or sources of electricity.

DO NOT apply when people or pets are present.

DO NOT allow people or pets to enter treated areas until sprays have dried.

DO NOT apply to furniture, mattresses, linens, toys or clothing.

DO NOT treat soil, turf or other plants adjacent to the building.

DO NOT treat patios, porches, decks, gazebos or play structures.

DO NOT allow spray to drip or allow drift onto non-target surfaces.

In indoor areas, DO NOT apply to overhead areas or in confined spaces without appropriate respiratory and eye protection.

In indoor areas, ventilate treated indoor areas after application either by opening windows and doors or using fans, where required, to aid in the circulation of air. Air exchange/ventilation systems confirmed to be operational may also be used. For structural applications, use a coarse droplet size and low pressure spray not exceeding 345 kPa (50 psi) to avoid splashing onto non-target surfaces unless otherwise stated on this label.

DO NOT apply as a space spray. DO NOT contaminate food/feed. DO NOT spray food/feed or food/feed packages. DO NOT apply when a food/feed processing facility or food/feed handling area is in operation. Remove all food/feed. Do not use in areas where food/feed is being prepared or processed. Do not use in any areas where food/feed is being stored, handled or served. Remove or cover all food/feed processing surfaces, equipment and utensils or thoroughly wash them following treatment. Any food/feed accidentally contaminated with spray solution must be discarded.

To protect pollinators, follow the instructions regarding bees in the ENVIRONMENTAL PRECAUTIONS section.

When applied outdoors to the exterior surfaces of buildings, DO NOT treat soil, turf or other plants adjacent to the building. DO NOT treat patios, porches, decks or play structures.

A. How to Apply Inside Buildings, Modes of Transport and Other Listed Structures:

DO NOT APPLY AS A SPACE SPRAY OR BROADCAST APPLICATION.

APPLY AS AN INDOOR PERIMETER, SPOT OR CRACK AND CREVICE TREATMENT.

Spot Treatment: Spot application is localized to a surface area not more than 0.2 m². Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area of a room.

Indoor Perimeter: Indoor perimeter application is less than 0.3 m wide along the edges of a room to baseboards, wall-floor and ceiling-wall joints, and around doorways or windows when using a coarse droplet size.

Crack and Crevice: Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Additional Instructions for Pests - Inside Buildings, Modes of Transport and Other Listed Structures: DO NOT exceed a rate of 49 mL of product /m². Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To kill ants, cockroaches, silverfish, sowbugs, spiders: Apply using the methods above on indoor building surfaces including, along and behind base boards; in cracks and crevices in walls, floors and ceilings; localized areas of carpets and rugs; around sinks; walls and floors behind and beneath appliances (e.g., stoves, refrigerators) and where these pests may enter such as along door and window sills.

To kill fleas and ticks (brown and American dog ticks): DO NOT apply to furniture, mattresses, linens, toys or clothing. Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. Spot treatments may be made with this product to pet bedding, or replaced with clean, fresh bedding after other listed areas are treated. DO NOT SPRAY PETS WITH THIS PRODUCT. Only treat pets with products specifically registered for use on that type of pet. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors,

carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area.

To kill house flies: Spray around windows and doors where house flies alight or enter.

B. How to Apply Outdoors on the Exterior Surfaces of Listed Structures:

DO NOT APPLY AS A BROADCAST APPLICATION. APPLY AS A SPOT TREATMENT ONLY. . Spot application is localized to a surface area not more than 0.2 m². Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area.

To kill house flies, apply on the exterior surfaces of listed structures and around windows, doors and outdoor lights and where house flies may enter. To control spiders, apply on the exterior surfaces of listed structures including under eaves, awnings and canopies. Treatment must only be repeated after 14 days if pest problem persists or reoccurs. DO NOT exceed 49 mL of product/m².

C. INDOOR ORNAMENTAL PLANTS: For use on non-food/non-feed ornamental plants grown indoors, including shopping malls, commercial buildings. DO NOT use on greenhouse ornamental plants. DO NOT apply to plants grown for food or feed. Controls aphids, whiteflies, thrips, and leafhoppers on indoor ornamental plants. Safe to use on most ornamental plants. Before treating delicate ornamental plants such as Coleus and African Violet, spray 1 or 2 leaves. If no effect is noticed after 2 days, it is safe to treat whole plant. Do not spray to run-off. DO NOT exceed 49 mL of product/m². Treatment must only be repeated after 7 days if pest problem persists or reoccurs. DO NOT exceed 2 applications per year.

D. OUTDOOR ORNAMENTAL PLANTS: Toxic to bees. Do not apply during blooming period. Controls aphids, thrips, and leafhoppers on outdoor ornamental plants. DO NOT apply to plants grown for food or feed. Wet upper and lower leaf surfaces thoroughly. Do not spray to run-off. Spray when listed insects are first noticed. DO NOT exceed 49 mL of product/m². Treatment must only be repeated after 7 days if pest problem persists or reoccurs. DO NOT exceed 2 applications per year.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Wear long pants, long-sleeved shirt, chemical-resistant gloves, shoes, and socks during mixing, loading, application, clean-up and repair, unless otherwise specified. Wash thoroughly before eating, drinking and smoking. Remove fish bowls and aquariums from the treated area.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms, birds, beneficial insects & bees. Toxic to certain beneficial arthropods (which may include predatory and parasitic insects, spiders, and mites). Minimize spray drift to reduce harmful effects on beneficial arthropods in habitats next to the application site such as hedgerows and woodland. Bees may be exposed through direct spray, spray drift, and residues on leaves, pollen and nectar in flowering crops and weeds. Minimize spray drift to reduce harmful effects on bees in habitats close to the application site. Avoid applications when bees are foraging in the treatment area in ground cover containing blooming weeds.

FIRST AID:

IF IN EYES

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN/CLOTHING Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.³

IF SWALLOWED Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Treat symptomatically.

STORAGE: Keep product in original container. Store in a cool, dry place. To prevent contamination store this product away from food or feed.

DISPOSAL: Do not reuse this container for any purpose. This is a recyclable container and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
