NON-SELECTIVE HERBICIDE

PRODUCT FACTS	
Container treats more than 1,400 weeds.	
Controls	[<i>Pictures of various types of grass & weeds</i>] BRUSH & POISON IVY, AS WELL AS MOST TYPES OF WEEDS & GRASSES
Where to Use	<ul style="list-style-type: none">• Brush & poison ivy control• On patios, walkways and driveways• In flower beds & vegetable gardens• Around trees, shrubs & ornamentals• For edging along fences, driveways, foundations• In large areas for lawn replacement & garden plot preparation & brush control
Questions, Comments 1-866-476-7645 www.roundupcanada.ca	

APPLICATOR DIRECTIONS:

1. Remove	Remove applicator from side clip. <ul style="list-style-type: none">• Unwrap hose completely. [Illustration #1]• Remove protective strip from battery compartment to activate batteries. [Illustration #2]
2. Connect	Insert plug at end of hose into [spout/knob/opening] on cap <u>until it clicks.</u> [Flip up spout./Flip up spout until fully upright./Twist [spout/knob] to "ON"./Pull spout up.] [Spout must remain up while spraying.] [Illustration #3]
3. Extend	Flip open applicator wand until it locks into position. [Illustration #4]
4. Spray	Twist nozzle at end of applicator wand to desired spray pattern. Ensure trigger lock is disengaged before spraying. Hold trigger for continuous spray. Release trigger to stop spray. [Illustration #5]

Important Use Information: Do not submerge in water. When storing sprayer for long periods, remove batteries.

To replace batteries: Open battery compartment at bottom of applicator handle. Remove used batteries and replace with new AA batteries in correct position as marked per diagram inside battery compartment. Securely close battery compartment door. Always use a complete set of the same type when replacing batteries. Never mix alkaline, carbon-zinc or rechargeable batteries.

DIRECTIONS FOR USE:

Glyphosate is not to be applied using hand-wicking or hand-daubing methods.

Follow illustrations and instructions.

1. Twist nozzle at end of applicator wand to desired spray pattern.
2. Point applicator wand away from body. Ensure trigger lock is disengaged before spraying. Hold trigger for continuous spray.
3. Release trigger to stop spray.

HOW TO APPLY:

- Spray the weeds or grasses you want to eliminate until thoroughly covered.
- For best results ensure that Roundup® Ready-to-Use Tough Brush & Poison Ivy Control with Wand Applicator gets down to the roots - avoid tillage or disturbing the treated area for 7-10 days. This will ensure that the entire plant, including the root, is eliminated.
- Avoid spray contact on desirable plants as any plant contacted may be killed. When spot treating around desirable plants, shield plants from drift with a piece of cardboard or plastic. If a desirable plant is accidentally sprayed, rinse off immediately with water.
- Do not apply to the point of run off.

WHERE TO APPLY:

IMPORTANT: Do not spray plants or grasses you like - they may die too. Not recommended for spot weed control in lawns since Roundup® Ready-to-Use Tough Brush & Poison Ivy Control with Wand Applicator kills lawn grasses.

- **Brush control:** Apply after leaves are fully expanded. Treat trees and brush up to 1.5 m in height only; for taller plants cut down and spray regrowth.
- **Poison ivy:** Apply to vigorously growing plants. Apply after seed heads, flowers or berries appear.
- **For lawn and garden renovation,** skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.

Do not apply to the point of run off.

WHEN TO APPLY:

- Apply when weeds and grass are actively growing. Apply to annual weeds anytime after emergence. For perennial weeds apply after seed heads, flowers or berries appear.
- For best results, apply during warm, sunny weather (above 15°C) to accelerate systemic movement from foliage to roots.
- Apply when air is calm to prevent drift to desirable plants.
- Do not apply if rainfall is forecast for the time of application. Rain-Proof - Rain or watering two hours after application will not wash away effectiveness. However, heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required.
- All ornamental flowers, trees & shrubs may be planted **1 day after** application.

WHAT TO LOOK FOR:

- Visible symptoms of control, such as browning or yellowing of leaves, will occur within 1 to 2 days with complete control in 7 to 10 days.

HOW IT WORKS:

- Roundup® Ready-to-Use Tough Brush & Poison Ivy Control with Wand Applicator is a non-selective vegetation control herbicide which controls brush and poison ivy, as well as most annual and perennial grasses, including lawn grasses & broadleaf weeds (i.e. virtually anything that is green and growing). Roundup® Ready-to-Use Tough Brush & Poison Ivy Control with Wand Applicator enters plants through foliage and moves systemically to the roots, eliminating weeds by stopping the production of a substance found only in plants.
- **NOTE:** Roundup® Ready-to-Use Tough Brush & Poison Ivy Control with Wand Applicator has no soil activity and will not leach or run off to affect nearby vegetation. Controls only growing

or emerged grasses and weeds. Repeat applications will be required as new seedlings and vegetation emerge.

PRECAUTIONS:

CAUTION: EYE IRRITANT. HARMFUL IF SWALLOWED. Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treatment area during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

FIRST AID:

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If ingested,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water or milk if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

Medical Information:1-866-476-7645.

STORAGE:

Completely dispense product in sprayer prior to storage. Twist sprayer nozzle to the OFF position. [Close spout on cap./Flip down spout on cap./Flip spout down to the "flat" position to close./Twist [spout/knob] to "OFF"./Push spout down.]
NO NEED TO DISCONNECT SPRAYER HOSE FROM CAP. Place sprayer back in side carrier on bottle with the nozzle facing down. Store this product in its original container, in a safe place out of the reach of children and pets. Keep from freezing.

DISPOSAL:

Do not re-use empty container. Wrap and dispose of empty container with household garbage.

Not for reformulation or repackaging.
