**Granular Trichlor 29**

Swimming pool algicide/bactericide  
Controls bacteria and algae in swimming pool and spa waters.  
**DOMESTIC**

**GUARANTEE:**

Available chlorine present as Trichloro-s-triazinetrione .....45.00%  
Copper, present as Copper Sulphate Pentahydrate..... 0.25%

REG. NO. 32721 P.C.P. ACT

*{Directions to be used for superchlorination/shock. Option A}*

## **SWIMMING POOL SHOCK**

*{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}*

*{One of the following two paragraphs will be used on the label.}*

[This fast-acting premium 6-in-1 shock product is easy to use and performs multiple, important maintenance functions. When used as directed, Granular Trichlor 29 effectively:

- Kills bacteria and algae [and protects against algae growth].
- Destroys organic contaminants [(such as) [body and suntan oils] [body oils] [suntan oils], [sweat] [perspiration], lotions and urine)] that cause cloudy water, musty odours and eye irritation]

[Because it dissolves rapidly and is multifunctional, this product works fast and effectively, allowing swimming to resume in as little as 15 minutes.\*]

*{or}*

[Granular Trichlor 29 contains an oxidizer, clarifier, filtration enhancer and pH buffers to provide brilliantly clear water with no cloudy residue and without increasing pH like ordinary shock products.] [Granular Trichlor 29 is suitable for use in vinyl, plaster, [PebbleTec®], [aggregate], painted plaster, coloured plaster, and fibreglass pools. Granular Trichlor 29 will not discolour swimming pool surfaces when used as directed.]

[Granular Trichlor 29 provides the solution for brilliant, clear, and inviting pool water and is suitable for all pool types.]

## **DIRECTIONS FOR USE:**

[Make sure all pool and spa equipment is working properly, including pump, filter, skimmer and heater. Backwash filter following manufacturer's directions [to ensure adequate circulation]. Check

alkalinity, pH and calcium hardness daily with a test kit. When using other products as outlined in directions for this product, always follow directions on those products.]

<b>Parameters</b>	<b>Swimming Pool</b>	<b>Spa</b>
Free available chlorine	1.0-3.0 ppm	3.0-5.0 ppm
pH	7.2-7.8	7.2-7.8
Total alkalinity	100-120 ppm	100-120 ppm
Calcium hardness	200-300 ppm	150-200 ppm
Copper levels	0.2-1.0 ppm	0.2-1.0 ppm

**IMPORTANT NOTE:** DO NOT pre-dissolve Granular Trichlor 29. As with other shock products, DO NOT apply through skimmer or chemical feeding device as other chemicals may be present that could result in a violent reaction.

**Routine Maintenance:**

1. [With pump running, pour [from 1 m high or less] 400 g of Granular Trichlor 29 per 40,000 L of pool water, directly into pool around edges.] *{and/or}* [For small vinyl pools, with pump operating, apply 40 g of Granular Trichlor 29 per per 4,000 L directly into pool\*\*.]
2. Wait at least 15 minutes after product application before entering pool.\*
3. Do not enter the pool until the free available chlorine residual is 1-3ppm.
4. [After 15 minutes, to] [To] prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.
5. Operate pump and filter continuously for 4-8 hours.
6. For best results, apply product weekly as part of your maintenance routine.

**If Algae is Present:**

1. Vacuum leaves and any other foreign debris from pool. Brush visible algae thoroughly from pool's surface with a surface-compatible brush.
2. [With pump running, pour [from 1 m or lower] 400 g of Granular Trichlor 29 per 40,000 L of pool water, directly into pool water in areas of heaviest algae growth, brushing any undissolved product.] *{and/or}* [For small vinyl pools, with pump operating, apply 40 g of Granular Trichlor 29 per 4,000 L directly into pool, brushing any undissolved product \*\*.]
3. Operate pump and filter continuously for 24 hours.
4. After 24 hours, repeat brushing of pool surfaces.
5. Do not enter the pool until the free available chlorine residual is 1-3 ppm.
6. If necessary repeat the treatment.

[\*\*Use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children.]

**\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 3 PPM CHLORINE DUE TO RISK OF BODILY INJURY. CHECK COPPER LEVELS REGULARLY BY USING APPROPRIATE TEST KIT OR TEST STRIPS. IF COPPER LEVELS EXCEED 1 PPM, USE A CHLORINE PRODUCT WITHOUT COPPER UNTIL LEVELS HAVE DROPPED.**

*{Simplified use directions to be used for swimming pool superchlorination/shock. Option B}*

## **SWIMMING POOL SHOCK**

[How?]

### **DIRECTIONS FOR USE:**

- Test and balance water before using this product. Adjust pH to 7.2-7.8. [Backwash filter following manufacturer's directions [to ensure adequate circulation].] Visit [*website*]{or} [cloroxpool.ca] for complete pool balancing instructions.

### **To Shock Water [Clear]:**

- Add 400 g per 40,000 L into the deepest pool area, operate filter and pump for 4 to 8 hours. [Hold bag no more than 1 m over pool surface.]
- [After 15 minutes, to] [To] prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.
- DO NOT pre-dissolve, DO NOT apply through skimmer or chemical feeder, DO NOT mix with other chemicals; a violent reaction may result.
- Wait at least 15 minutes after product application before entering pool.\*
- Apply more product after heavy use, high temperatures, or rain. For best results, shock pool weekly.
- Do not enter the pool until the free available chlorine residual is 1-3 ppm.

### **[To Kill Algae:**

- Brush pool surfaces while filter and pump are operating.
- Add 400 g per 40,000 L directly to the pool water in areas of heaviest algae growth, brushing any undissolved product. [Hold bag no more than 1 m over pool surface.]
- Operate filter and pump for 24 hours and then repeat brushing.
- Do not enter the pool until the free available chlorine residual is 1-3 ppm.
- Product can be re-applied after 72 hours if necessary.]

**\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 3 PPM CHLORINE DUE TO RISK OF BODILY INJURY. CHECK COPPER LEVELS REGULARLY BY USING APPROPRIATE TEST KIT OR TEST STRIPS. IF COPPER LEVELS EXCEED 1 PPM, USE A CHLORINE PRODUCT WITHOUT COPPER UNTIL LEVELS HAVE DROPPED.**

[To Close Pool:

- [Backwash filter following manufacturer's directions [to prepare your filter for closing].]
- Add 400 g per 20,000 L into the deepest pool area while filter and pump are operating.
- To prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.
- Apply an appropriate winter [algaecide] {or} [algicide] after addition of this product.]
- [Visit [*website*]{or}[cloroxpool.ca] for complete pool closing instructions.]]

*{Simplified use directions to be used for swimming pool superchlorination/shock. Option C}*

**DIRECTIONS FOR USE:**

[Backwash filter following manufacturer’s directions [to ensure adequate circulation].] Test and balance water prior to use. Adjust pH to 7.2-7.8 [and free chlorine to 1-3 ppm]. Visit [cloroxpool.ca] [website] for free water analysis and personalized product and dosage recommendations.

Dosage	When/How To Use:
400 g per 40,000 L	<b>TO SHOCK WATER CLEAR AND DESTROY ORGANIC CONTAMINANTS**:</b> <i>{Optional: Enter Pictogram A and/or C in this box}</i> Broadcast in pool’s deepest area with filter and pump on. Run filter and pump for 4-8 hours. <b>DO NOT</b> pre-dissolve, <b>DO NOT</b> add through skimmer or feeder, <b>DO NOT</b> mix with other chemicals (a violent reaction may result).  [[After 15 minutes, to] [To] prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.]  <b>RE-ENTRY:</b> Wait at least 15 minutes after product application before entering pool.* Enter when chlorine level is 1-3 ppm.  <b>FOR BEST RESULTS:</b> Shock pool weekly and also after heavy use, high temperatures, or rain. Use at <b>night</b> to prevent sunlight degradation.
	<b>TO KILL ALGAE:</b> <i>{Optional: Enter Pictogram B in this box}</i> 1. Brush pool surfaces while filter and pump are operating. 2. Add in areas of heaviest algae growth, brushing any undissolved product. 3. Operate filter and pump for 24 hours. 4. After 24 hours repeat brushing. Product can be re-applied after 72 hours if necessary. 5. Enter when chlorine level is 1-3ppm*
	<b>TO CLOSE POOL:</b> Broadcast in pool’s deepest area with filter and pump on, brushing any undissolved product. Apply an algacide per closing directions after this product. Visit [cloroxpool.ca] [website] for complete closing instructions.
400 g per 20,000 L	<b>TO CLOSE POOL:</b> Broadcast in pool’s deepest area with filter and pump on, brushing any undissolved product. Apply an algacide per closing directions after this product. Visit [cloroxpool.ca] [website] for complete closing instructions.

\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 3 PPM CHLORINE DUE TO RISK OF BODILY INJURY. CHECK COPPER LEVELS REGULARLY BY USING APPROPRIATE TEST KIT OR TEST STRIPS. IF COPPER LEVELS EXCEED 1 PPM, USE A CHLORINE PRODUCT WITHOUT COPPER UNTIL LEVELS HAVE DROPPED.

\*\*[such as] [body and suntan oils] [body oils] [and] [suntan oils] [and] [sweat] [perspiration] [and] [lotions] [and] [urine]

[To prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.]

*Pictogram A*

*Pictogram B*

*Pictogram C*

*{Optional abbreviated use directions & graphics for use on retail box containing 400 gram bags of product used for superchlorination. Retail box will also display complete use directions and precautionary statements on other panels when abbreviated use directions and graphics are included on retail box. Option A}*

400 g bag treats 40,000 L of water.

Step One: Open a single bag of Granular Trichlor 29 by cutting along the dotted line with scissors.

Step Two: With pump operating, pour contents directly into pool while walking along the perimeter.

Step Three: Wait at least 15 minutes before entering your pool. Test chlorine levels before re-entry\*.

Be sure to operate your pump and filter continuously for 4 to 8 hours after adding Granular Trichlor 29. [After 15 minutes, to] [To] prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool. For best results, apply weekly as part of your maintenance routine. Check the back of this box for more about Granular Trichlor 29 including detailed directions on application and precautionary statements.

**\* Re-entry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.**

*{Simplified optional abbreviated use directions & graphics for use on retail box containing one pound bags of product used for superchlorination. Retail box will also display complete use directions and precautionary statements on other panels when abbreviated use directions and graphics are included on retail box. Option B}*

400 g bag treats 40,000 L of water.

Step One: Open a single bag by cutting along the dotted line with scissors.

Step Two: Add 400 g to 40,000 L into the deepest pool area, operate filter and pump for 4 to 8 hours. [Hold bag no more than 1 meter over pool surface.]

Step Three: Wait at least 15 minutes after application before entering pool\*.

- [After 15 minutes, to] [To] prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules that may have settled to the bottom of the pool.
- Apply more product after heavy use, high temperatures, or rain. For best results, shock pool weekly.
- Check the back of this box for more information, detailed application directions, and precautionary statements.

**\* Test chlorine levels before re-entry. Re-entry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of bodily injury. Check copper levels regularly by using appropriate test kit or test strips. If copper levels exceed 1 ppm, use a chlorine product without copper until levels have dropped.**

*{Directions to be used for spa and hot tub oxidizing.}*

## **SPA AND HOT TUB OXIDIZER**

*{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}*

*{One of the following two paragraphs will be used on the label.}*

[This easy-to-use multi-purpose shock is specially formulated to reduce unpleasant odours. [It is designed to correct most cloudy conditions and restore spa water sparkle.] It is compatible with ozone systems. This product enhances water comfort and stabilizes pH. [Special] [Unique] [It includes] ingredients [such as water clarifiers and filter enhancers] [that] aid the filter in removing small suspended particles to further enhance water clarity.]

*{or}*

[This product is specially formulated to destroy unpleasant odours, and corrects most cloudy conditions to restore spa water sparkle. It combines a blend of multiple oxidizers, water clarifiers and water-enhancing buffers. Special ingredients aid the filter in removing small suspended particles to further enhance water clarity. This product provides enhanced water clarity, improved bather comfort, and is convenient to use. It is designed to be used with all types of spa surfaces.]

*{One of the following two paragraphs will be used on the label.}*

[This product is convenient to use and dissolves quickly and completely. There is no pre-mixing required and no undissolved solids remain. [This product works with all surface types [and may be used with chlorine, bromine and ozone, as well as ionizers.]]

*{or}*

[This product dissolves quickly and completely. No pre-mixing is required. This product is pH neutral and usage will not upset spa water balance. It is formulated for use with all types of spa surfaces. [May be used with chlorine, ozone, bromine, and ionization systems.]]

**IMPORTANT NOTE:** DO NOT pre-dissolve Granular Trichlor 29. As with other shock products, DO NOT apply through skimmer or chemical feeding device as other chemicals may be present, which could result in a violent reaction.

## DIRECTIONS FOR USE:

1. Test and adjust spa water pH to 7.2-7.8 prior to application of this product.
2. Apply product when spa is not in use.
3. [Apply product at a rate of 40 g per 2,000 L.] *{or}* [Apply entire 40 g packet per 2,000 L.]{*when product sold in 40 g packets*}
4. With pump in operation, apply the entire treatment dosage at one time. Broadcast across the water's surface. To prevent damage to spa surface, use an appropriate brush to disperse any undissolved granules that may have settled to the bottom of the spa.
5. Apply directly to spa water only. Do not add through a skimmer or any automatic dispensing device.
6. Do not enter the spa until the free available chlorine residual is 3-5 ppm.
7. Add this product at least once a week. Additional applications are recommended after periods of heavy spa usage, significant rainfall or the appearance of cloudy water.

TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. DO NOT RE-ENTER SPA UNTIL YOUR TEST KIT READING INDICATES A CHLORINE LEVEL BETWEEN 3-5 PPM. CHECK COPPER LEVELS REGULARLY BY USING APPROPRIATE TEST KIT OR TEST STRIPS. IF COPPER LEVELS EXCEED 1 PPM, USE A CHLORINE PRODUCT WITHOUT COPPER UNTIL LEVELS HAVE DROPPED.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.** Harmful or fatal if swallowed. Do not breathe dust. Irritating to nose and throat. Corrosive to eyes and skin, DO NOT get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Corrosive. Wash hands thoroughly after handling. Remove and wash contaminated clothing. User should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **IF SWALLOWED:** Call poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control centre or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention. **[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [1-866-366-5048].]**

**TOXICOLOGICAL INFORMATION:** Treat symptomatically. Probable mucosal damage may contraindicate the use of gastric lavage.

**STORAGE:** Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well-ventilated area, away from heat, open flame, sunlight and other chemicals.

**DISPOSAL:** Rinse container thoroughly before discarding. Offer for recycling if available. Do not reuse empty container. For information on the disposal of unused, unwanted product, contact the Provincial Regulatory Agency or the manufacturer. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with the generation of heat, hazardous gases, and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. If necessary, flood with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge where it will drain into lakes, streams, ponds or public waters.

**PHYSICAL OR CHEMICAL HAZARDS:** CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal [bag] [container]. Isolate [bag] [container] in open air or well-ventilated area. Flood [bag] [container] and area with large volumes of water. In case of spills, scoop up and place product in pool water, then flood spilled area with large volumes of water.

**[NOTE:** User assumes all responsibility for use not in accordance with directions.]
