- Dormant and growing season liquid copper fungicide.
- Controls many plant diseases using low concentrations of copper.
- Biodegradable - Decomposes to a form useful to plants & microbes.
- Do not apply within one day of harvest.

**DIRECTIONS FOR USE:**

DO NOT apply this product in a way that will contact adults, children or pets, either directly or through drift. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. DO NOT apply to any body of water. Avoid application of this product when winds are gusty.

**APPLICATOR DIRECTIONS:**

<b>1. Remove</b>	Remove applicator from side clip. <ul style="list-style-type: none"><li>• Unwrap hose completely. [Illustration #1]</li><li>• Remove protective strip from battery compartment to activate batteries. [Illustration #2]</li></ul>
<b>2. Connect</b>	Insert plug at end of hose into [spout/knob/opening] on cap <u>until it clicks</u> . [Flip up spout/Flip up spout until fully upright./Twist [spout/knob] to "ON"/Pull spout up.]. [Spout must remain up while spraying.] [Illustration #3]
<b>3. Extend</b>	Flip open applicator wand until it locks into position. [Illustration #4]
<b>4. Spray</b>	Twist nozzle at end of applicator wand to desired spray pattern. Ensure trigger lock is disengaged before spraying. Hold trigger for continuous spray. Release trigger to stop spray. [Illustration #5]

**Important Use Information:** Do not submerge in water. When storing sprayer for long periods, remove batteries.

**To replace batteries:** Open battery compartment at bottom of applicator handle. Remove used batteries and replace with new AA batteries in correct position as marked per diagram inside battery compartment. Securely close battery compartment door. Always use a complete set of the same type when replacing batteries. Never mix alkaline, carbon-zinc or rechargeable batteries.

**APPLICATION DIRECTIONS:**

**HOW TO APPLY**

Follow illustrations and instructions:

1. Twist nozzle at end of applicator wand to desired spray pattern.
2. Point applicator wand away from body. Ensure trigger lock is disengaged before spraying. Hold trigger for continuous spray.
3. Thoroughly spray plants to wetting, including undersides of leaves.
4. Release trigger to stop spray.

The standard application rate for the listed species is 1 L of Miracle-Gro Garden Defense Garden Disease Control Ready-to-Use with Wand Applicator per 10 m<sup>2</sup>. Spray all plant surfaces thoroughly. For best control, begin treatment 2 weeks before disease normally appears or when weather forecasts predict a long period of wet weather. Alternatively, begin treatment when disease first appears. For outdoor flowers and ornamentals, do not exceed 10 applications per year. If possible, time applications so that 12 hours of dry weather follow application.

If concerned about sensitivity of plants, apply to individual plants or small areas of plants and wait to determine if plant damage occurs prior to treatment of larger areas.

Plant	Application Rate and Notes	Diseases Controlled or Suppressed
<p>Greenhouse and outdoor ornamental shrubs and flowering plants ( such as rose, hollyhock, hydrangea, crape myrtle)</p> <p>Rose</p> <p>Crape Myrtle</p>	<p>Apply 1 L product/10 m<sup>2</sup>. Re-apply using 5-10 day intervals.</p> <p>May cause copper toxicity on some rose varieties. Copper toxicity appears as purple spots.</p> <p>In damp cool conditions (below 18°C), phytotoxicity is likely to occur with the use of MIRACLE-GRO® GARDEN DEFENSE GARDEN DISEASE CONTROL READY-TO-USE WITH WAND APPLICATOR.</p>	<p>Corynespora leaf spot - Supression Powdery mildew Rust Bacterial blight Fire blight Coryneum blight</p> <p>Black spot Powdery mildew Rust</p> <p>Cercospora leaf spot -Suppression</p>

<b>VEGETABLES, FRUITS, NUTS, and BERRIES</b>		
<b>Plant</b>	<b>Application Rate and Notes</b>	<b>Diseases Controlled or Suppressed</b>
Root and Tuber Vegetables (Garden beet, Potatoes, Sugar Beet)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Early blight on potato Late blight on potato Septoria leaf spot on potato Cercospora leaf spot on beet and sugar beet
Bulb Vegetables (Chives, Garlic, Leek, Onion, Shallot)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Downy mildew Botrytis leaf blight Soft rot
Celery	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Cercospora (early) blight Septoria (late) blight
Brassica Leafy Vegetables (Bok choy, Broccoli, Brussels sprouts, Cabbage, Cauliflower, Kale)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.  For Brussels sprouts, do not exceed 10 applications per year.	Black rot - Suppression
Legumes (Bean, Pea, Soybean)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Ascochyta blight Halo blight Common blight Brown spot Powdery mildew Rust
Fruiting Vegetables (Eggplant, Peppers, Tomatoes)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Early blight Late blight Septoria leaf spot Bacterial speck Bacterial leaf spot Bacterial canker
Cucurbits (Cucumbers, Cantaloupe, Melon, Squash, Pumpkin, Zucchini)	Apply 1 L product/10 m <sup>2</sup> Re-apply using 5-10 day intervals.	Powdery mildew Downy mildew Alternaria leaf blight Anthracnose Angular leaf spot Bacterial wilt Septoria leaf spot

<p>Pome Fruit Trees (Apple, Pear)</p>	<p>Apply 1 L product/10 m<sup>2</sup> Re-apply using 5-10 day intervals. Do not exceed 10 applications per year.</p> <p>For fireblight control, apply MIRACLE-GRO® GARDEN DEFENSE GARDEN DISEASE CONTROL READY-TO-USE WITH WAND APPLICATOR in the dormant period, during bloom, or in-season cover spray applications. <b>Do not apply to light-skinned apples after fruit has formed or russetting may occur.</b></p>	<p>Fire blight Scab</p>
<p>Stone Fruit Trees (Apricot, Cherry, Nectarine, Peach, Plum)</p>	<p>Apply 1 L product/10 m<sup>2</sup> Re-apply using 5-10 day intervals.</p> <p>For peaches, do not exceed 5 applications per year.</p> <p>For nectarines, do not exceed 10 applications per year.</p> <p>For bacterial canker, apply as a dormant spray as buds begin to swell, repeating at the bud burst stage, and weekly thereafter as needed, up to six sprays. In the fall spray again at 10% and 80% leaf fall. For brown rot blossom blight apply full cover spray at delayed dormant (bud swell), popcorn, full bloom and petal fall stages. During wet weather additional bloom sprays may be necessary.</p> <p>Apply to leaf and fruit spot, Coryneum blight, and peach leaf curl as a dormant spray in late fall during a period of dry weather.</p>	<p>Peach leaf curl Bacterial spot Coryneum blight Bacterial canker Brown rot Leaf and fruit spot</p>

<p>Small Fruits (Blackberry, Blueberry, Currant, Gooseberry, Raspberry, Strawberry)</p>	<p>Apply 1 L product/10 m<sup>2</sup>. Apply at the start of flowering and continue every 7 to 10 days. Do not apply within 1 day of harvest.</p> <p>For strawberries, spray 1 month after planting (or before flowering on established plants) and twice more at 7 day intervals.</p>	<p>Powdery mildew on strawberry Rust on currant and gooseberry Bacterial blight on raspberry, blackberry and blueberry</p>

**PRECAUTIONS:**

KEEP OUT OF REACH OF CHILDREN. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. DO NOT allow adults, children or pets to enter the treated area until sprays have dried.

**TOXICOLOGICAL INFORMATION:**

Treat symptomatically.

**ENVIRONMENTAL HAZARDS:**

TOXIC to birds, small wild mammals and aquatic organisms. To reduce runoff from treated areas into aquatic habitats avoid application to areas with a moderate to steep slope, compacted soil or clay. Avoid application when heavy rain is forecast. Contamination of aquatic areas as a result of runoff may be reduced by including a vegetative strip between the treated area and the edge of the water body.

**FIRST AID:**

**If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**STORAGE:**

[Close spout on cap./Flip down spout on cap./Flip spout down to the "flat" position to close./Twist [spout/knob] to "OFF"./Push spout down.] NO NEED TO DISCONNECT SPRAYER HOSE FROM CAP. Completely discharge/dispense product in sprayer onto the lawn

prior to storage. Twist sprayer nozzle to the OFF position. Engage trigger lock. Flip the wand closed and place sprayer back in side clip. Store in original container in a cool, dry, well ventilated area. To prevent contamination store this product away from food or feed. Protect from freezing.

**DISPOSAL/DECONTAMINATION:**

DO NOT reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

**Scotts No-Quibble Guarantee®**
