Lawn Weedout® Ultra Selective Weed Control provides control of dandelion and plantain and top growth control of fall hawkbit, hawkweed, cinquefoil, and black medic in turf. Visible effects on weeds can be observed within 24 hours and weeds die in four to eight weeks.

This product can be directly applied to small patches and individual broadleaf weeds as a spot treatment. To maximize its effectiveness, this herbicide should be used in conjunction with a sound turf maintenance program. Avoid mowing the lawn until the effect of weed treatment is visible.

[Following bullet - optional placement on primary and/or secondary panel:]

- **EASY TO USE**
Cartridge is ready to use
Simply insert in SmartOnes™ Precision Sprayer
No mixing required
Just load and spray

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING.

No dilution or mixing needed – just load and spray!

- Remove protective cap and retain for storage of unused product.
- To activate, set dial to ON. Set to OFF when not in use.
- Insert cartridge upside down in the cone of the SmartOnes™ Precision Sprayer.
- Lock handle firmly in place.
- Place the SmartOnes™ Precision Sprayer over treatment area.
- Gently push handle down to release the product. Spray covers an area of 8.9 cm (3.5 inches) in diameter.

Use anytime weeds are present and actively growing. For more resistant weeds, re-apply after 4-6 weeks. This product will not prevent new weeds – **apply only when weeds are present**. Grass that is accidentally treated may temporarily turn brown but will recover.

Optimum Application Conditions: Do not apply to drought stressed grass or newly seeded lawns. Do not apply in very hot (over 30 °C) or rainy weather, or if rainfall is forecast within the next 2 to 4 hours. Do not water for 2 hours after application.

PRECAUTIONS: Avoid activities that could result in skin contact with treated lawns or turf surfaces until residues have dried. Toxic to terrestrial and aquatic plants. Do not apply to desirable plants.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If inhaled,** move person to fresh air. If person is

not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor immediately for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: DO NOT reuse the empty cartridge. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

STORAGE: To prevent contamination store this product away from food or feed. **KEEP FROM FREEZING**
