[OR]

For you, for your area (campsite)  
[to be used in conjunction with graphics to describe alternate segmentation available]

[OR]

Try our complete line of OFF!® outdoor products.

- Personal repellents
- (Patio)(Deck)(Yard)(Backyard)
- (Camp) (Campsite) (Campground)

Look for products in each of these categories to meet your outdoor needs.

## Secondary panel:

Provides a fogging action over a large area and kills flies, mosquitoes, wasps and hornets.

**DIRECTIONS:** Shake before using. Point valve opening away from face. Hold can on slight downward angle. FOR OUTDOOR USE: For best results spray when air is calm and temperature is under 32°C. Allow fog to drift over area. Direct spray toward bushes or grass from at least 1.5 to 2 metres away. Because insects may move in from other areas, treat an area larger than you plan to use. Repeat as necessary.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Avoid inhaling spray. Do not apply in areas with no or poor ventilation. Do not spray directly on skin or pets. Avoid contamination of ponds, lakes, streams, and other bodies of water which contain fish life or which may be used for irrigation or domestic purposes. KEEP FROM FREEZING. CONTENTS UNDER PRESSURE. Do not puncture or incinerate container or store at temperatures over 50°C. Do not place in hot water or near radiators, stoves, or other sources of heat.

**FIRST AID: If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**DISPOSAL:** When container is empty, press valve to release all remaining pressure. Wrap and dispose of empty container with household garbage. This container may be recycled in communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the can by following the procedure described above.
