**DIRECTIONS FOR USE:**

Do NOT administer by mouth. Shake bottle well before using. Wet pet thoroughly with warm water. Apply shampoo and rub shampoo into coat beginning at the head and working backward until entire body is covered (approximately 5 mL/kg). Pay special attention to neck, hindquarters, areas under legs, around the tail and between toes. Do NOT treat eyes, face or genitals of the pet. For difficult infestations, allow the lather to remain for 3 – 5 minutes. Rinse thoroughly to remove all traces of shampoo on the pet's coat. Do NOT use on pets under 8 weeks of age. Do not treat nursing females. Do not use on sick animals. Do not use on animals under drug or pesticide treatment. Consult a veterinarian before using on pregnant animals. Do NOT use this shampoo more often than once every 2 weeks. Treatment must be repeated only if the pest problem reoccurs. Do NOT use solely as a shampoo when there is no pest problem. **DO NOT** apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment.

For effective flea and tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal treatment of the premises may be required. A veterinarian should be consulted when flea infestation continues to be a problem on the pet.

**PRECAUTIONS:**

**HUMANS: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed or absorbed through skin. May irritate eyes. Avoid contact with mouth, eyes, skin and clothing. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water. Avoid product contact with food, food utensils or places where food is prepared or stored. Use **ONLY** in well-ventilated area, preferably outdoors. Avoid contact with treated animals until dried. **DO NOT** allow product to contact non-target surfaces. **PETS:** Harmful if swallowed. Rinse the pet thoroughly with water to remove all traces of shampoo. Avoid contact with pet's mouth, face, eyes and genitals. Do NOT allow pet to lick the suds from the coat or to ingest any of the shampoo.

**FIRST AID:**

**HUMANS: IF SWALLOWED**, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **IF IN EYES**, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**PETS:** Sensitivities may occur after using ANY pesticide for companion animals. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Take container, label, or product name and Pest Control Product Registration Number with you when seeking medical or veterinary attention.

**TOXICOLOGICAL INFORMATION:**

This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

**DISPOSAL:**

**DO NOT REUSE CONTAINER.** Wrap and dispose of empty container in household garbage.
