DIRECTIONS FOR USE:

This aerosol product is ready to use.

Within the specified use location, to enhance effectiveness of this product, apply this product directly to the listed pest where possible.

Unpainted or unsealed concrete surfaces may require repeated application if necessary.

Good sanitary practices should be maintained to prevent re-infestation.

RESTRICTIONS:

- DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
- Avoid application of this product when winds are gusty.
- DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed.
- DO NOT apply when people, pets or livestock are present.
- DO NOT allow people, pets or livestock to enter treated areas until sprays have dried.
- DO NOT allow spray to drip or allow drift onto non-target surfaces.
- DO NOT apply to people, pets, livestock or sources of electricity.
- Unless otherwise stated on this label, DO NOT apply to furniture (excluding bookcases and storage furniture), mattresses, linens, toys or clothing.
- When used indoors, DO NOT apply to overhead areas or in confined spaces (for example, attics, crawlspaces).
- When used indoors, ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air.
- DO NOT apply as a space spray or broadcast application.
- This product may stain or damage certain plastic, rubber and asphalt materials such as tiles, floor covering and carpets. Apply with caution to surfaces and avoid excessive wetting.
- Do not apply to tapestries, wall paper or similar materials that may stain. Do not apply to draperies, wallpaper or similar materials that may be stained.
- Application to vinyl and aluminum siding (particularly lightly-coloured, aged, weathered or otherwise damaged) may result in staining, bleaching or discolouration. Factors such as extreme heat and direct sunlight can promote damage. Always pre-test a small inconspicuous area to be treated for colour fastness and staining. Pre-test siding. Evaluate 30 minutes after test application for potential staining. Never apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day.
- For all other surfaces, test a small inconspicuous area of the surface to be treated for color fastness & staining before full application.
- DO NOT treat soil, turf or other plants adjacent to the treatment site

HOW TO APPLY:

SHAKE WELL BEFORE USING. This product has a special valve that sprays in all directions even upside down for hard to reach areas. Hold container approximately 30 cm from surface being

sprayed and spray until thoroughly wet but not until run-off. Apply as a crack and crevice or spot treatment only, to kill listed pests.

SPOT APPLICATION is localized to a surface area not more than 0.2 m². Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area of a room.

CRACK AND CREVICE is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and moldings.

This product may be used with an injection tube for injecting into cracks and crevices. Place injector-tip 2 cm into cracks, crevices, holes and other small openings where insects may be a problem. Release approx. 1-second spray per spot. In serious infestations, place spots approx. 30 cm apart. In light infestations, place spots approx. 1 metre apart.

INSTRUCTIONS FOR INSIDE BUILDINGS TO KILL SPIDERS: Thoroughly treat indoor building surfaces, including cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around sinks, drains and pipes; around interior foundations; localized areas of floors and floor coverings and points of entry (e.g., around windows and doors). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

INSTRUCTIONS FOR OUTDOOR USE ON THE EXTERIOR SURFACES OF BUILDINGS AND PATIOS, PORCHES, AND DECKS TO KILL SPIDERS, ANTS, HOUSE FLIES, FLEAS, SOWBUGS AND BROWN DOG TICKS: Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where spiders and listed insects enter (e.g., screens, door frames, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. For spiders, apply to the exterior surfaces of buildings and on patios, porches and decks including under eaves, awnings and canopies. For house flies, apply as a spot treatment only. Houseflies will be killed when they land and crawl on the treated surfaces. For Ants, spray on points of entry. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C. Cover fish bowls when spraying rooms. Avoid contact with skin, eyes and clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

FIRST AID:

If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

ENVIRONMENTAL PRECAUTIONS:

Toxic to aquatic organisms, birds, bees and beneficial insects.

TOXICOLOGICAL INFORMATION:

This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

STORAGE: Store this product away from food or feed.

DISPOSAL:

When container is empty, press button to release all pressure then dispose in household garbage. Do not puncture or incinerate. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
