31860 Emmerthal, Germany

Canadian Agent:

Neudorff North America

PO Box 178

Brentwood Bay, BC V8M 1R3

250-652-5888

This insecticide contains the active ingredient spinosad which is derived from a naturally occurring bacterium, *Saccharopolyspora spinosa*. Ants are attracted by the bait and carry it to their nest where it is fed to other worker ants, larvae and the queen. The colony is controlled within 1 to 2 weeks. Kills ants, including carpenter ants.

USE SITES:

OUTDOOR AREAS: ornamental landscaped areas (such as in residential areas and parks), turf (such as lawns, athletic fields, recreational areas, golf courses, commercial turf, sod, grass buffers, parks, playgrounds, cemeteries, picnic areas and campgrounds), crop areas (food and feed), gardens and fallow lands.

RESIDENTIAL, INSTITUTIONAL, COMMERCIAL, AND INDUSTRIAL AREAS: Use in and around single and multi-family residential buildings, institutional, commercial and industrial facilities (such as schools, hospitals, warehouses, apartments, supermarkets, restaurants, kitchens, motels, hotels, processing facilities/plants, barns, livestock dwellings, and railyards), on or around decks, patios, balconies, paths, electrical conduits, vents, pipe chases, concrete slabs, crawlspaces, skylights on roofs, garbage cans, around and behind appliances, along walls, window sills, sidewalks, and driveways; on ground around home or structure, and other areas ants are found.

DIRECTIONS FOR USE:

1. For small bait stations (up to 10 mL) place 1.5 to 3 metres apart and use up to 4 bait stations or 40 mL of liquid bait per 15 m² if ant infestations are low to moderate. For severe infestations use up to 9 bait stations or 90 mL of liquid ant bait per 15 m². For large bait stations (more than 100 mL) space further apart, up to one every 50 m².
2. Place bait station near ant nest or where ants are visible. Avoid placing in direct sun to decrease evaporation of the bait solution.
3. Fill according to the directions accompanying purchased bait stations.
4. Check station regularly and refill when the bait solution has been consumed or dried out.
5. The bait stations should remain in place to ensure that ant colonies are exterminated.
6. When the ant population has been controlled, the bait station may be cleaned and moved to a different location. Do not reuse the bait station except to refill with liquid ant bait solution.
7. This product may also be applied directly to non-porous paper, plastic, cardboard, or foil and placed beside ant nests or where ants are visible. When applied in this way, DO

NOT use in residential areas. Residential areas are defined as any use site where bystanders, including children, could be exposed during or after application. This includes homes, schools, parks, playgrounds, playing fields, public buildings or any other areas where the general public, including children, could be exposed. Place where inaccessible to children, pets, and non-target animals.

8. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, DOMESTIC AND NON-TARGET ANIMALS. TOXICOLOGICAL INFORMATION: Treat symptomatically.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

ENVIRONMENTAL HAZARDS: Toxic to aquatic organisms.

STORAGE: To prevent contamination, store this product away from food or feed.

DISPOSAL: Make empty container unsuitable for further use. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
