## **DIRECTIONS FOR USE:**

**Restrictions:** DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. DO NOT apply when people or pets are present. DO NOT allow people or pets to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, pets, livestock or sources of electricity. DO NOT apply to furniture, mattresses, linens, toys or clothing. DO NOT apply to overhead areas or in confined spaces (e.g., attics, crawlspaces, small storage rooms, closets). Ventilate treated areas after application by opening windows and doors or using fans where required to aid in the circulation of air. DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruits, herbs). DO NOT apply as a space spray or broadcast application.

Application to vinyl and aluminum siding (particularly lightly coloured, aged, weathered or otherwise damaged) may result in staining, bleaching or discolouration. Always pre-test a small inconspicuous area to be treated, for colour fastness and staining. Pre-test siding. Evaluate 30 minutes after test application for potential staining. Never apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of day. Do not apply to tapestries, wallpaper or similar materials that may stain.

**How to apply:** Shake can well before using. Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices for spider control. Apply as a crack and crevice or spot treatment only to kill spiders. Spot application is localized to a surface area not more than 0.2 m<sup>2</sup>. Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

**Indoor use:** Thoroughly treat indoor building surfaces, including cracks, crevices in walls, floors and ceilings, beneath furniture (e.g., shelves and drawers), along door sills, baseboards and openings around sinks, drains and pipes, behind stoves and refrigerators, around window frames, in localized areas of attics and basements, and around interior foundations. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

**Outdoor use:** For use outdoors on the exterior surfaces of buildings and on patios, porches and decks. Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where spiders enter (e.g., screens, door frames, window frames). Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50 °C. Cover fish aquariums. Avoid contact with skin, eyes, clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

**ENVIRONMENTAL PRECAUTIONS:** Toxic to aquatic organisms, birds, bees and beneficial insects.

**FIRST AID:** **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and P.C.P. Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

**DISPOSAL:** When container is empty, press valve to release all remaining pressure. Wrap and discard empty container in household garbage. Do not puncture or incinerate.

**For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806. [www.wilsoncontrol.com](http://www.wilsoncontrol.com)**
