DEVICE USER GUIDE

IMPORTANT: READ ALL INSTRUCTIONS BEFORE USE

ATTENTION: This product is intended for adult use only. This product is not a toy.

[INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS]

IMPORTANT SAFETY INFORMATION. READ CAREFULLY BEFORE USE.¹

NOTICE: This product contains a lithium ion battery which is subject to certain transport restrictions. Inspect the product's packaging prior to transport. Do not transport this product if the component housing the battery is damaged.

When using rechargeable battery operated products, basic precautions should always be taken. To reduce the risk of injury, close supervision is necessary when a product is used near children. **KEEP OUT OF REACH OF CHILDREN**
DO NOT put fingers, hands, metal or other foreign objects in the product.

Do not remove the battery from the equipment housing. Do not store with battery completely discharged for extended periods of time. Batteries should be charged at least once every 3 months during storage. Battery should be discharged and charged after being stored more than a year to maintain optimal battery capacity. The battery should be stored at room temperature in a dry location and should not be placed, charged or stored in high-temperature locations. Exposure of the battery or device to fire or temperature above 130°C (265°F) may cause explosion.

Only use with battery charger supplied in a properly functional electrical outlet. Charging should be performed at a temperature between 5°C and 43°C (40°F and 110°F). Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire. Recharge only with the USB charger supplied with the device

¹ NOTE TO PMRA REVIEWER: This section may be revised periodically as these statements comply with FCC, UL, IEC and EN standards and CE directives and marking.

(5V DC-1000 mA) or with a USB Listed/Certified Class 2 Power unit charger marked 5V DC-1000 mA. [DO NOT use the device during the battery charging process.]

If any leaks, odors, or deformities are noticed in the structure housing the battery, immediately discontinue use and dispose of safely.

Do not expose the device to water or otherwise allow the device to get wet. [Should a battery become ruptured, do not allow contact with water].

[Have servicing performed by a qualified repair person using only identical replacement parts] [to ensure that the safety of the product is maintained]. [Do not modify or attempt to repair the device.] [For service, contact Thermacell.]

[USE ONLY Thermacell Refills. Thermacell will not be responsible for damage, injury or poor product performance caused by use of any other refills or unapproved replacement parts in this Thermacell device.]

SAVE THESE INSTRUCTIONS.

Welcome [to Thermacell]

1. [Get ready to experience] [You're ready to discover] a new [better] [remarkable] way to repel mosquitoes. Thermacell products create a zone of repellency from mosquitoes.
2. Thermacell patented technology uses heat to release repellent continuously, providing hours of repellency.
3. [Up to][28] sq m Repellency [Zone] [per repellents]

In the Box [Contains] [Included:]

{Use instructions; steps and sub-bullets throughout used as appropriate; some bullets may be prefaced with "Tip:"}

Device 1

[Let's get started.]

1. Charge [charging] [the] Repeller

- a. Pull back [away] charge port cover and insert [the] USB cable [provided]
- b. Plug [the] [charger][cable] into a standard [120V wall receptacle] [USB port]
- c. Fully charge [the repeller] before [the] first use.
- d. [Fully]Charging [the battery] can take up to [#] hours
- e. Battery indicator blinks during charging.
- f. When charge is complete, battery indicator stays on [lit]
- g. Battery [Level] [Run-time remaining] [check]
- h. The battery indicator [light] displays for 3 seconds when the repeller is turned on.
- i. [#] [color][Light][s]: [<] [>] [#] [+] Hours [minutes] [Fully Charged] [remains][run time]
- j. Steady White: 3 Hours +
- k. Steady Yellow: < 3 hours
- l. Blinking Yellow: < 30 minutes

2. Insert [inserting] a [repellent] cartridge

- a. Remove the [wick] cover from a cartridge [Remove the cap from a refill]
- b. Insert the refill into the base
- c. Squeeze the wick cover [as indicated] and lift up to remove.
- d. Keep the [refill] cap for storage or travel.
- e. Do not remove the cap until ready to use.
- f. Keep cartridge upright anytime cap is removed
- g. Do not touch or remove the wick.
- h. Prior to transporting, remove the [repellent] cartridge from the repeller and replace wick cover
- i. Replace empty repellent cartridge when repeller is turned off.
- j. Open the [mosquito] repeller [and insert cartridge into the [repeller] [base]
- k. Close the [mosquito] repeller.
- l. If you use [open] a cartridge at high elevation, cartridge contents may be under pressure. [Upon removing the wick cover, repellent may accumulate around the base of the wick.] [If needed, use a paper towel to wipe away any repellent.] [Dispose of paper towel in the trash and wash hands with soap and water].
- m. Do not expose wick to water. If wick shows any sign of damage, dispose of cartridge immediately in the trash.

3. [[To]Turn on/off] [Using the repeller]

- a. Press the power button [to turn] [ON][OFF].
- b. Light [ring] will illuminate when turned on.
- c. To turn off, press [and hold] the power button [for 1 second] [until the light [ring] turn[s] off.]
- d. Place the repeller in center of area where mosquito repellency is desired.

2024-1463
2024-05-24

- e. [Let] Run [repeller] for 15 minutes to [completely] establish the [repellency] zone
- f. Only use outdoors. Do not cover. Keep repeller upright during use.
- g. For best results, let the mosquito repeller run for 15 minutes
- h. If the power button flashes 3 times but does not stay on, the device may be in locked mode. [see instructions to LOCK/UNLOCK repeller].

Operating Modes

LOCK [MODE] / [Unlock Repeller]

- LOCK MODE prevents the repeller from being turned on accidentally during transport or storage.
- Press and hold the power button for 5 seconds to activate/deactivate LOCK mode. Light ring will flash to confirm mode change.
- [If power button is pressed while in LOCK MODE the light will flash but repeller will not turn on.]

AUTO-OFF

- The repeller features an AUTO-OFF timer option, giving you one less thing to remember [to turn off].
- When using the repeller in this mode, it will automatically turn off after [x] minutes [hours] of use.
- To activate the AUTO-OFF mode, turn the repeller on and then double click the power button.
- Double click the power button to start the timer.
- The repeller will automatically turn off in 2 hours [120 minutes].
- To cancel the timer, simply turn the repeller off.

Useful Tips

1. For best results, place in the center of the area you want to repel mosquitoes from.
2. Allow [15] minutes for the full [repellency] zone to be established. [Start the device and put in place [15] minutes before using the area].
3. For best results, let the device run for 15 minutes to establish complete repellency zone.
4. For optimal repellency in larger areas, use multiple repellents spaced [up to] [6m] apart.
5. [Effectiveness can be impacted by wind and air movement]. [On a windy day] Place upwind on a windy day.
6. Avoid exposing open refills [or device(s)] to rain.
7. The refill wick will get hot while in use. Always allow to cool before handling.
- 8 Do not attempt to touch, break, or remove the refill wick.
9. Only use TheraCell refills in this device.
10. Do not use or leave in direct sunlight, rain, or extremely hot or cold conditions.
11. Only operate with vent facing upwards.
12. Do not cover the repeller while in use.
13. For outdoor use on patios, decks, unenclosed porches, walkways, around swimming pools and other areas where mosquito repellency is desired. Do not use indoors.

Maintenance [storage] [travel] [and] [Care]

1. Condensation may build around the top [vent] over time. Turn repeller off and wipe with a damp [dry] cloth. Do not use chemicals or abrasives.
2. [Replace cap [on cartridge] and] store in a dry place when not using the repeller.
3. Partially used [cartridges] should be [removed from the device and] [capped] [or] [disposed of] prior to storage [storing for extended periods of time].
4. Store in a cool, dry place. Do not leave repeller outside when not in use.

2024-1463
2024-05-24

5. [Do not store with battery completely discharged for extended periods of time.] Batteries should be charged at least once every 3 months [during storage]. [Battery should be discharged and charged after being stored more than a year in order to maintain optimal battery capacity].
6. Do not use or leave in direct sunlight or in extremely hot conditions.
7. For travel, always remove the repellent cartridge and tightly seal with refill cap.

Troubleshooting

1. [The LED light ring around the power button will remain illuminated while the device is in operation]. If the repeller won't turn on [start]:
 - a. Check that the top of the repeller is properly seated on the base. The repeller will not operate if top and bottom are separated [or if battery contacts are obstructed].
 - b. Confirm the repeller is not in LOCK mode. [The repeller will not turn on while in LOCK MODE].
 - c. Charge the battery. The repeller will not turn on if battery is too low.
2. If you are [still] bothered by mosquitoes [after [#] minutes]:
 - a. [Check that] the device is on. Light ring should be illuminated. [see steps above[below]].
 - b. [Confirm] a cartridge is inserted and [cartridge] has repellent. [Replace with a new cartridge when the level gets low].
 - c. Make sure the wick is not damaged or missing.
 - d. Be sure the repeller is [within] [#] m from you.
 - e. Allow the device to run for up to 15 minutes [undisturbed].
 - f. Call or email customer service if you still experience problems using your repeller.

Getting Started

Your Thermacell Zone Mosquito Repellent VI-B has a rechargeable battery. Prior to first use, fully charge the battery. [It can take up to [XX] [minutes][hours] to fully charge. To charge the battery pull back the rubber cover to expose the USB charging port located on the back of the repeller. Insert the charging cable provided with the repeller. The battery indicator is located below the power button. [You can also charge your Thermacell Zone Mosquito Repellent VI-B repeller wirelessly using any Qi wireless charger.] [When the repeller is charging you will hear a beep.]

{Image of battery lights}

- Charging:
- Fully Charged:
- Low Battery (Less than 20 minutes):
- Battery Too Low to be Turned On: Flashes

Control Panel

1. Your Thermacell Zone Mosquito Repellent VI-B will communicate different statuses through the control panel.
 2. Power Button - Turns device on and off.
 3. Repellent Cartridge Status - Don't worry about running out of repellent, the indicator will let you know when you have less than 2 hours left.
 4. Flashing red Repellent Cartridge indicator: No Repellent Cartridge present and unit will not turn on
 5. Solid red Repellent Cartridge indicator: Less than 2 hours of repellent left
 6. Timer - A built in 2 hour timer so you'll never forget to turn it off. The timer icon will illuminate when the timer mode is activated. The repeller will turn off after 2 hours automatically. To enter/exit timer mode, press the power button 2X in quick succession.
 7. [ZoneCheck][Status][Indicator] - A visual communication tool that lets you know the repeller status. No need to pick up the device or get close to check.
- Chasing Pattern: Unit is warming up
 - Solid Illumination: Unit is up to temp / Actively releasing repellent

Images to accompany

Inserting a Thermacell Zone Mosquito Repellent VI-B Cartridge

1. Remove top from repeller: To remove the top grasp the repeller base

2024-1463
2024-05-24

with one hand and remove the top with the other.

2. Remove the cap from a Repellent Cartridge.
3. Insert the Repellent Cartridge into the repeller.
4. Replace the repeller top taking care not to damage the Repellent Cartridge wick.
5. [The repeller will magnetically close once aligned]. Use only Thermacell Zone Mosquito Repellent VI-B Cartridges
6. Cartridges are available in multiple sizes

Example Imagery

Using Thermacell Zone Mosquito Repellent VI-B [Turning on your repeller]

1. Press the power button to turn on.
2. The repeller will sound with an ascending tone [and the ZoneCheck Indicator will illuminate for 3 seconds when turned on.] The repeller will then display a chasing pattern of light indicating it is starting to heat up. Once the Zone is formed the ring will stay illuminated.
3. It can take up to 15 minutes for the Zone to fully establish.
To turn off press and hold the power button again: *You will hear a descending chime and all illumination will turn off.*

Place your device

1. The Thermacell Zone Mosquito Repellent VI-B is best placed in the center of the desired Zone of repellency.
2. If it is windy, place the repeller upwind of where you are sitting.
3. For outdoor use only.
4. Only operate with vent facing up.
5. Do not cover repeller while it is in use.

Care and storage

1. Occasionally debris or condensation may build up on Thermacell Zone Mosquito Repellent VI-B device. Simply use a damp paper towel or rag to wipe away any build up.
2. Do not expose the Thermacell Zone Mosquito Repellent VI-B to extended periods of rain or submerge in water.
3. Do not expose the Thermacell Zone Mosquito Repellent VI-B to temperatures above 60°C (140°F).
4. Store at room temperature in a dry environment when not in use.
5. Do not store with battery completely discharged for extended periods of time. Batteries should be charged at least once every 3 months during storage.

Using the light

1. The light can be used with or without the repellency function
2. To turn the light on, [touch the ring around the device] [move the switch to the on position][use the light switch to turn on the light]

2024-1463
2024-05-24

3. To dim the light, hold a finger on the ring. [the light will continue to dim as long as you hold a finger on the ring]
[The light will then brighten once the dimmest setting is reached]
4. To turn off the light, touch the ring again.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Only adults are permitted to replace the cartridge.

ENVIRONMENTAL PRECAUTIONS:

This pesticide is highly toxic to aquatic organisms. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

FIRST AID:

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Contains petroleum distillates. Treat symptomatically. Vomiting may cause aspiration pneumonia.

STORAGE: Repellent Unit:

DO NOT contaminate water, food or feed by storage. **Pesticide Storage:** Store in a cool, dry place out of reach of children. Keep container tightly closed. Store refills out of direct sunlight.

DISPOSAL:

Wrap in newspaper and dispose with household garbage. DO NOT reuse the empty refill containers. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Never place unused product down any indoor or outdoor drain.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

{Guarantee statements}:

1. [100%] [Money –Back] [Satisfaction] Guarantee [Guaranteed]
2. At Thermacell, we stand behind our products and [their] performance. If you are not completely satisfied with your [Thermacell] purchase, you may return it to us for [(at our option)] repair, replacement, or refund.] [within [#] [days][years] of purchase]

2024-1463
2024-05-24

3. [For refunds, requests must be received within [#] days from date of purchase with the original purchase receipt. Any product received later than [#] days from the date of purchase will be replaced or repaired by Thermacell at the company's option.

{Side / Bottom Panel and Insert when applicable}

DIRECTIONS FOR USE:

[See insert(s) inside box for usage directions.] [Keep packaging [leaflet] for future reference.]

[Please refer to the instructions [user guide] that came with your device for complete precautions and directions for use.]

Insert [inserting] a [repellent] cartridge [refill]

- a. Squeeze the wick cover [as indicated] and lift up to remove.
- b. Open the repeller and insert cartridge into the [repeller] [base]
- c. Close the repeller.
- d. Keep the [refill] cap for storage or travel.
- e. Do not remove the cap until ready to use.
- f. Keep cartridge upright anytime cap is removed
- g. Do not touch or remove the wick.
- h. Prior to transporting, remove the [repellent] cartridge from the repeller and replace wick cover [refill cap].
- i. Replace empty repellent refills when repeller is turned off.
- j. Contents may be under pressure. If you are using Thermacell Zone Mosquito Repellent VI-B at high altitudes, upon removing the refill cap [wick cover] repellent may accumulate around the wick. If needed, use a paper towel to carefully wipe any extra repellent accumulating on the cartridge or repeller with a tissue or paper towel. Dispose of paper towel in the trash and wash hands with soap and water.
- k. Do not allow the wick to be exposed to water. If wick begins to show sign of damage, dispose of immediately in the trash.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Only adults are permitted to replace the cartridge.

ENVIRONMENTAL PRECAUTIONS:

This pesticide is highly toxic to aquatic organisms. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

FIRST AID:

If Inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.
