**ORTHO® GROUND CLEAR™ READY-TO-USE
GRASS & WEED KILLER**

PESTS

For control of grass and weeds such as (but not limited to): chickweed, corn spurry, dandelion, groundsel, lamb's-quarters, lichens, liverworts, mouse-eared chickweed, mustards, plantain and round leaved mallow.

- Rainfast in 3 hours
- Leaves no harmful residue in the soil
- Non-staining

DIRECTIONS FOR USE:

Shake well before using.

Spray weeds thoroughly, using a coarse nozzle setting to reduce drift. Thorough coverage is extremely important. For spot treatment of individual weeds, apply the solution to the center of plant to the point of runoff. When spot treating individual weeds in lawns, avoid spraying surrounding grass (lawn) as injury will occur.

The best results are obtained with young, actively growing weeds, less than 12 cm high. Ortho® Ground Clear™ Ready-to-Use Grass & Weed Killer works best during warm and dry conditions.

Application during cold weather may delay appearance of plant damage. If rain falls within 3 hours of treatment, an additional spray may be required. Plant damage will be visible from a few hours to 2 days after spraying. Repeat treatment every 2 to 3 weeks to control new weeds growing from seed and re-growth from bi-annual and perennial weeds. Avoid spraying desirable plants. Thoroughly clean equipment after use.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May irritate eyes. Avoid contact with eyes. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product.

Avoid direct application to ponds, streams and lakes. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
