**DIRECTIONS FOR USE:**

Amerstat 325 Microbiocide for Metal Working Fluids is effective at low concentrations in the control of micro-organisms normally found in metal working fluids. The dosage will depend upon a number of factors including, the nature and extent of the micro-biological contamination, the type and volume of the system and the degree of control desired. In general, the maintenance dosage of a non-fouled system will be 125 to 565 ppm of Amerstat 325 Microbiocide for Metal Working Fluids added to the emulsion every 8-12 weeks or as required. For further details, refer to Product Data Sheets on Amerstat 325 Microbiocide for Metal Working Fluids or contact your Drew Canada, Ashland Canada Corp engineer.

**PRECAUTIONS:      KEEP OUT OF REACH OF CHILDREN.**

DANGER – Potential skin sensitizer. Corrosive to eyes and skin. May cause allergic skin reactions. May be harmful if inhaled. May be fatal if swallowed or absorbed through the skin.

Potential skin sensitizer. Do not get in eyes, on skin, or on clothing. Do not swallow. Avoid breathing vapours and spray mists. Wash skin thoroughly with soap and water after handling. Remove contaminated clothing and wash separately from other laundry before reuse.

Danger: Corrosive to eyes and causes skin burns. May cause allergic skin reactions. May be harmful if inhaled. May be fatal if swallowed or absorbed through the skin.

Wear long pants, a long-sleeved shirt, chemical-resistant gloves, a full face NIOSH-approved respirator and a chemical-resistant apron during mixing/loading, clean up and repair.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

**FIRST AID:**

DO NOT INDUCE VOMITING. Drink promptly a large quantity of milk, egg whites gelatine solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or poison control centre IMMEDIATELY. If inhaled remove immediately to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Call a physician or poison control centre immediately. If on skin, wash thoroughly with soap and water. Remove and wash contaminated clothing before reuse. If in eyes flush with plenty of water for at least 15 minutes. Call a physician or poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

**DISPOSAL:**

1. Triple or pressure rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product contact the Provincial Regulatory Agency or Manufacturer. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
