METHOD OF APPLICATION Step 1 - Place ear tag under clip by compressing lever. Collar on tag must be pointing up. Slide male button on pin. Align stud with hole of tag. Tag and buttons are now ready for application. Step 2 - Put ear tag on the flat surface at center of ear. Do not allow shaft of male button to penetrate any cartilage rib or blood vessel.

When properly positioned, the tag should hang as shown.

DIRECTIONS FOR USE: Attach one tag per animal in the Spring to control horn flies for a full summer season. Do not use on calves under six months of age. Permethrin ear tags are easy to attach using a recommended applicator.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Wear gloves during application and wash hands thoroughly after tagging is completed.

Avoid contact with skin, eyes and mouth. Store apart from food or feed. Remove tags before slaughter. No withdrawal period is required. Do not store near heat or open flame. Wrap used tags and dispose in garbage. This pesticide is toxic to fish. Do not allow tags to contaminate any body of water.

FIRST AID: In case of eye contact, immediately flush eyes with plenty of water. If on skin, wash thoroughly with soap and water. Get medical attention if discomfort persists.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATION OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on these conditions.
