ProCare Brominating Tablets: Weight per Tablet: 20g

ProCare Brominating Tablets, when used as directed, are effective as a swimming pool water sanitizer and disinfectant.

WARNING: Direct tablet contact may cause bleaching of vinyl or painted pool surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

DIRECTIONS FOR USE:

1. Maintain recommended daily levels as determined by testing kit.

Free available bromine:	2.0 – 4.0 ppm
pH:	7.2 – 7.8
Total Alkalinity:	100 – 150 ppm
Calcium Hardness:	200 – 300 ppm

2. If using an automatic feeding device, fill the chamber(s) with tablets and adjust flow rate, according to manufacturer's recommendations, to maintain proper bromine residual. Adding tablets to the pool's skimmer basket is an alternative bromine method. Daily usage should be approximately 25 g of **ProCare Brominating Tablets** per 10,000 L of pool water.

NOTE: Heavy pool usage, and higher temperatures may require higher usage rates to maintain proper bromine residuals.

3. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product being employed.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Avoid contact with skin and eyes. Avoid breathing dust. Harmful if swallowed. Keep container closed and store in a cool dry location.

FIRST AID: If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Contact a poison control centre or a physician immediately. **In case of eye contact,** flush eyes with cold water for at least 15 minutes. Call a physician or contact a Poison Control Centre immediately. **In case of skin contact,** brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation develops, seek medical attention or contact a Poison Control Centre. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge where it will drain into lakes, streams, ponds or public waters.
