SHAKE WELL BEFORE AND DURING USE

"Duratrol" Yard and Kennel CONCENTRATE Flea Spray is a CONCENTRATE formulation of microencapsulated "Dursban" for residual control of fleas and ticks on lawn and kennel areas. The product can be conveniently applied with pump-up tank sprayers or with a garden hose spray attachment (such as the Ortho Lawn Sprayer). The microcapsules provide a "timed release" mechanism for the active ingredient chlorpyrifos, to provide long-lasting control of fleas.

DIRECTIONS FOR USE

IN YARDS - Use 60 mL (2 fl oz) of concentrate in 4 litres of water for every 15 square metres (160 sq ft) of turf area and around outdoor resting and play areas of pets.

Use a coarse, low-pressure spray in a smooth back and forth motion to uniformly apply product. Repeat treatment if reinfestation occurs.

FOR KENNELS AND DOG-HOUSES - Thoroughly clean kennel floors and kennel/dog-house structures. Animal bedding should be washed or replaced with clean bedding prior to treatment. Mix 600 mL (20 fl oz) of concentrate and water to make 4 litres of spray. DO NOT USE AS A SPACE SPRAY. Using a coarse low-pressure spray with a smooth back and forth motion, apply to kennel and dog-house structures. Thoroughly treat cracks and crevices, and as a spot treatment only to areas of floors and pet resting areas in kennels. This application may reduce the need for the use of topical insecticides to your pet.

Remove animals during spraying and until surfaces are dry. Not for indoor use in homes or commercial establishments other than for kennel areas.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

WARRANTY:

Sellers guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes all risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

PRECAUTIONS:

Avoid breathing spray mist. Avoid contact with skin and eyes. Wash hands after handling and before eating. Do not spray directly on pets or humans. Do not contaminate food and water bowls and dispensers or pet feeding areas.

FIRST AID:

IF SWALLOWED: Call a physician or Poison Control Centre. Drink 1 or 2 glasses of water and induce vomiting by touching finger to back of throat. Never give anything by mouth to an unconscious person.

IF ON SKIN: Remove contaminated clothing and wash skin with soap and water. IF IN EYES: Flush eyes with plenty of water. If irritation persists, call physician.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor, treat symptomatically. Atropine only by injection is an antidote.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, wildlife and birds. Keep out of any body of water. Do not contaminate lakes or streams by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL: Store in original container out of the reach of children. Do not freeze or store above 120°F. Do not contaminate water, food or feed by storage or disposal. Do not reuse container. Dispose in a safe place according to Provincial regulations.

"Duratrol" is a trademark of 3M. "Dursban" is a trademark of the Dow Chemical Co.
