DIRECTIONS FOR USE

SANET-EX-19-A DISINFECTANT CLEANER 19-a is a proven "one-step"
cleaner-disinfectant-sanitizer-fungicide-virucide-mildewstat in

the presence of moderate amounts of organic soil. Apply SANET-EX-19-A DISINFECTANT CLEANER 19-a to walls, floors, and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, and bedframes with a cloth, mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION - Treated surfaces must remain wet for 10 min. To disinfect hard, non-porous hospital surfaces, add 20 ml/L of water. At this use-level, SANET-EX-19-A DISINFECTANT CLEANER 19-a is also virucidal and fungicidal. At 10 ml/L SANET-EX-19-a DISINFECTANT CLEANER 19-a will deinfest hard, non-porous surfaces in schools, industry and non-medical institutions.

DISINFECTANT CLEANER 19-a delivers excellent cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus, Salmonella choleraesuis and Escherichia coli.

SANET-EX-19-A DISINFECTANT CLEANER 19-a is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

MILDEWSTAT PERFORMANCE: At 10 ml/L SANET-EX-19-A DISINFECTANT CLEANER 19-a will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated above). Allow to dry on surface and repeat weekly or when mildew growth returns.

VIRUCIDAL PERFORMANCE: At 8 ml/L use level, SANET-EX-19-A DISINFECTANT CLEANER 19-a was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses). Adenovirus Type 5 (a causative virus in respiratory diseases), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

FOR HOSPITALS AND NURSING HOMES, ADD 20 ml/L of water. The broad spectrum activity of SANET-EX-19-A DISINFECTANT CLEANER 19-a has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the ADAC Use-Dilution test:

Pseudomonas aeruginosas, Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, Streptococcus pyogenes, Proteus mirabilis, Klebsiella pneumoniae, Enterbacter aerogenes, Salmonella schottmuelleri, Streptococcus faecalis, Shigella

dysenteriae, Brevibacterium ammoniagenes.

SANITIZING NON-FOOD CONTACT SURFACES (such as walls, floors, tables, etc.) At 6.5 ml/L use-level, SANET-EX-19-A DISINFECTANT CLEANER 19-a is an effective sanitizer in waters of up to 850 ppm hardness against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 30 seconds.

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. SANET-EX-19-A DISINFECTANT-CLEANER 19-A is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross contamination.

SANET-EX-19-A DISINFECTANT CLEANER 19-a is an extremely effective one-step sanitizer for non-food contact surfaces. It cleans and sanitizes in waters up to 850 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

At 10 ml/L water, SANET-EX-19-A DISINFECTANT-CLEANER 19-a will deodorize surfaces in bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors. Inhibits the growth of mold and mildew.

CAUTIONS:

KEEP OUT OF REACH OF CHILDREN. MAY CAUSE SEVERE EYE IRRITATION OR EYE DAMAGE. WEAR EYE PROTECTION. CAUSES SKIN IRRITATION. DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING. HARMFUL IF SWALLOWED. AVOID CONTAMINATION OF FOOD.

CONTAINER DISPOSAL

Triple rinse (or equivalent) and dispose in an incinerator or regular trash collection.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
