GERMICIDAL DETERGENT is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, non-medical institutions and industry. A single application removes dirt and grime, disinfects, is virucidal, fungicidal

and inhibits growth of mold and mildew and their odours. GERMICIDAL DETERGENT is an effective one-step sanitizer-cleaner for use on non-food contact surfaces. When used as directed GERMICIDAL DETERGENT will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause malodors.

DIRECTIONS FOR USE:

Apply GERMICIDAL DETERGENT to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain and bedframes with a cloth, or mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION To disinfect hard, non-porous surfaces, add 15.6 mL/L of water. Treated surfaces must remain wet for 10 minutes. At this dilution GERMICIDAL DETERGENT has been found effective in the presence of 5% serum against the following organisms. *Salmonella choleraesuis*, *Brevibacterium ammoniagenes*, *Escherichia coli*, *Klebsiella pneumoniae*, *Salmonella schottmelleri*, *Salmonella typhi*, *Serratia marcescens*, *Shigella dysenteriae*, *Staphylococcus aureus*, *Streptococcus pyogenes*.

Non-Acid Toilet Bowl Disinfectant/ Cleaner:

Add 44.4 mL to the bowl and mix, brush thoroughly over exposed surfaces and under the rim, allow to stand for 10 minutes and flush. Empty toilet bowl or urinal apply 15.6 mL/L, use solution to exposed surfaces including under the rim with a cloth, mop or sponge.

Fungicidal Performance: at 15.6 mL/L GERMICIDAL DETERGENT is an effective fungicide against *Trichophyton metagrophytes* (the athlete's foot fungus) when used on surfaces including rooms, shower and bath areas, exercise facilities etc.

Mildewstatic Performance: at 15.6 mL/L GERMICIDAL DETERGENT will effectively inhibit the growth of mold and mildew and the odours caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance: at 15.6 mL/L use-level GERMICIDAL DETERGENT was evaluated in the presence of 5% serum and found to be effective against the following viruses: Influenza A

Brazil, Herpes Simplex Types I and Vaccinia, on inanimate hard, non-porous environmental surfaces.

SANITIZING For sanitizing non food contact surfaces, at 7.2 mL/L use level, 30 seconds contact time, GERMICIDAL DETERGENT is an effective sanitizer against staphylococcus aureus and klebsiella pneumoniae in the presence 5% serum on hard, porous and non-porous environmental surfaces.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock respiratory depression and convulsion may be needed.

PRECAUTIONARY STATEMENTS: KEEP OUT OF REACH OF CHILDREN.

Danger - Corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST-AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately or poison control Centre. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

1. Triple or pressure-rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill.
