SPECTOL

Disinfectant sanitizer based on quaternary ammonium compound.
Phénol coefficient 35 (Staphylococcus aureus).

DIRECTIONS

To disinfect walls, floors, furniture, waste-baskets, telephones, public convenience, operating rooms, hospitals, nursing homes, institutions, hotels, restaurants, industries, use 12 mL SPECTOL per liter of water. It kills *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*. Use 12 mL SPECTOL per liter of water to react against the pathogenic fungi such as *Trichophyton interdigital*.

PRECAUTION

Keep out of reach of children. Corrosive. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food. All surfaces subject to food contact must be thoroughly rinsed with potable water after use of this product.

FIRST AID TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes and call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Never give anything by mouth to an unconscious person. Call physician immediately.

TOXICOLOGICAL INFORMATION

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a product under unsafe conditions.
