MADE IN CANADA

KEMTREET
6660 Campobello Rd.,
Mississauga, Ont.
L5N 2L9,

Plants: Europe/Latin America/Caribbean/Canada/Africa/U.S.A.,

KEMTREET 825 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers.

KEMTREET 825 is effective at all pH values and will not cause foam.

DIRECTIONS FOR USE

Prior to the use of KEMTREET 825 in water cooling towers, systems should be cleaned to remove algae growth, microbiological slime, and other deposits. Then make an initial slug addition of 420 to 1050 mL of KEMTREET 825 per 10,000 litres of water in the system. Repeat initial dose until control is evident. Make subsequent slug additions of 120 to 1050 mL of KEMTREET 825 per 10,000 litres of water every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

Do not use in potable water systems.

PRECAUTIONS
KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the pest control products act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

FOR INDUSTRIAL USE ONLY
NOT FOR RESALE
