BRANCHES IN PRINCIPAL CITIES.

WESTOKLEEN is an economical and powerful cleaner-disinfectant which acts quickly in ridding surfaces of dirt and grime, at the same time leaving these surfaces disinfected.

DIRECTIONS FOR USE:

To clean and disinfect most surfaces, use 15 mL of WESTOKLEEN per litre of water. Apply liberally using a mop, cloth or sponge.

For cleaning and disinfecting in and around toilet bowls, urinals, sinks, fixtures, etc., use 20 mL of WESTOKLEEN per litre of water.

For cleaning and disinfecting floor surfaces such as Wood, Linoleum, Cement, Terrazzo, Asphalt Tile, Rubber etc., use 15 mL of WESTOKLEEN per litre of water - maybe used on conductive floors without any deleterious effects.

To clean and disinfect office telephones, industrial eye shields, eyeglasses and other protective garments, use 15 mL of WESTOKLEEN per litre of water. Use double strength for porous or difficult-to-clean surfaces. WESTOKLEEN may also be used for cleaning and disinfecting dishes, glassware, food-handling equipment and eating utensils. Use 15-30 mL per litre of water, followed by a rinse with potable water. Local health department codes should be followed.

Rinse empty container thoroughly with water and discard it.

KEEP FROM FREEZING.

CAUTION: Do not take internally. Harmful if swallowed. Avoid contamination of food. Avoid contact of concentrate with skin. Do not get in eyes. Causes eye irritation.

FIRST AID: In case of contact, wash thoroughly with water. If eye irritation persists, get medical attention. In case of ingestion administer large quantities of milk or water. Avoid alcohol. Do not induce vomiting. Consult a physician.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
