APACIDE

GENERAL INFORMATION: This product may be used on the following livestock: beef cattle, dairy cattle and swine. This product may also be used for surface spot treatment and fogging of farm buildings. It kills, on contact, house flies, face flies, stable flies, horn flies, lice, mosquitoes, gnats, spiders, ants, wasps, hornets and crickets.

DIRECTIONS FOR USE:

Livestock: For horse flies, horn flies, mosquitoes and stable flies. Spray on Beef and Dairy Cattle and Swine: Using a sprayer that produces a fine mist, apply up to 30 mL per animal. Cover the entire animal without making the hair wet. Do not spray in the eyes or mouth. Repeat as necessary, but not more than once a day.

Treat dairy cattle at least 20 minutes before milking, but do not spray directly on udder. Wash udder before milking.

To Control Blood Sucking Lice on Cattle: Apply to the infested areas of the animal, using a stiff brush to get the spray to the base of the hair. Repeat as necessary.

Farm buildings: (dairy barns, milk rooms, beef barns, horse stables, swine housings) For rapid control of flies, gnats, mosquitoes, spiders, ants, cockroaches: apply using a good space sprayer (fogger) adjusted to deliver a fine mist at a rate of 200-300 mL per 100 cubic metres. All animals must be removed from barn/building before fogging. Close windows, doors, and shut off ventilating systems and sources of ignition. Direct spray upward to fill the room with a fine mist. Leave the room closed for 10 minutes before ventilating. Do not remain in treated area. Ventilate treated areas thoroughly for at least 30 minutes before animal reentry. Spray only when temperature is under 32 deg Celsius.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Do not breathe spray mist.

Wash contaminated clothing before reuse. Do not contaminate food, feed or water troughs. Contents toxic to fish and birds. Use only when milk room is NOT in operation. Cover or remove all milk and milking implements before spraying. After spraying, wash all surfaces that may contact milk and rinse thoroughly with potable water before resuming operations.

STORAGE: Store in original container away from feed and food.

DISPOSAL: Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the

disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environmental Protection, Environment Canada.

FIRST AID: If on skin, wash thoroughly with soap and water. If in eyes, flush with clear water for 15 minutes; get medical attention. If swallowed DO NOT induce vomiting.

Product contains Petroleum Distillate. Call physician immediately.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
