**DIRECTIONS FOR USE:**

1. Fill a clean litter box with at least 8-10 cm of Super Saver Plus Antibacterial Clumping Cat litter. Do not mix with other litters. No liner is required.

2. Granules rapidly absorb urine, clumping it into a solid ball, so it doesn't seep to the bottom of the litter box. Daily, sift through the litter box with a slotted scoop. Remove and discard the clumped balls and solid waste that may be in the box.

**Caution: Do not flush down the toilet or the septic tank system.**

3. Simply add more Super Saver Plus granules to maintain at least 8-10 cm in the litter box.

Precautions: Always wash hands thoroughly after preparing or cleaning the litter box. As with any situation involving animal waste, pregnant and nursing women should exercise caution and consult with a physician before handling a litter box.
