**DIRECTIONS FOR USE:  
SHAKE WELL BEFORE USING.**

**GENERAL:** For both indoor and outdoor situations, proper training by you is the best way to control your pet. This product should be used in conjunction with training.

**INDOORS:** To break your pet of undesirable habits (such as sleeping on the furniture, rugs and other forbidden areas in your home), spray the article of furniture, rugs, etc., lightly with this product so that the area or object is slightly moistened. Before spraying extensive areas of rugs, fabrics or plastics, test the effect of this product by first treating a small, less obvious area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

**OUTDOOR USE:** Apply only in areas adjacent to buildings. Do not apply in wildlife habitat areas (e.g., parklands, forested lands). To prevent your pet or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreens, lightly spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawn, etc. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking odor. Re-apply every day or every other day until undesirable habits of your pet or stray animals are changed.

**NOTE:** This product is not likely to break the established urination patterns of dogs, unless used as a training aid. *Do not apply directly to foliage or shrubs or to ornamental, soft-bodied plants.*

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. CONTENTS UNDER PRESSURE. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. In the home, all food processing surfaces and utensils should be covered during treatment. Cover exposed food. Wear rubber gloves when applying this product by hand. Do not apply this product in a way that it will contact any person or pet, either directly or through drift. Do not apply to food/feed crops or animals. Do not allow persons or pets to enter the treated area until the spray has dried. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container. Do not store at temperatures over 50°C.

**Environmental Hazards:**

Do not apply directly to aquatic habitats (such as lakes, rivers, sloughs, ponds, coulees, prairie potholes, creeks, marshes, streams, reservoirs or wetlands) or estuarine/marine habitats. DO NOT contaminate water by cleaning equipment or disposing of wastes.

**FIRST AID:** If **swallowed**, call physician or Poison Control Centre immediately. If **inhaled**, remove affected person to fresh air. If **in eyes**, flush promptly with clean water for 15 minutes. If **on skin**, wash with soap and water. If any irritation persists, get medical attention.

Take container, label or product name and PCP Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:** When empty, press valve and release all pressure. Dispose of empty container in household garbage. Do not puncture or incinerate.
