NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

A liquid blend of sodium hypochlorite for use as a biocide in open recirculating cooling water systems.

DIRECTIONS FOR USE

Dosages and method of application of B 012 will depend on the type of equipment and the type and quantity of microbiological

life involved.

Initial dosage of B 012 should be 50 ppm (5 litres per 10,000 litres in the system). Continuing dosages should be applied at 25 to 30 ppm (2.5 to 3.0 litres per 10,000 litres of water in the system) at intervals of 2 to 3 days or as needed to maintain satisfactory control.

Slug additions should be made to cooling tower basins or sump or at an alternate point which provides good mixing.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Causes eye and skin irritation. Avoid contact with skin and eyes. Do not use in potable water systems.

FIRST AID

Contains sodium hypochlorite. If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eyes, call a physician. If swallowed, give one or two glasses of milk or warm water.

Call physician immediately. Keep patient warm

KEEP FROM FREEZING.
