WOLMANIZED

WOLMAN(R) END CUT PRESERVATIVE is a penetrating toxic wood preservative sealer and moisture repellent to protect cut ends on WOLMANIZED(R) PRESSURE TREATED LUMBER.

DIRECTIONS FOR USE: For exterior use only. Not for use in dwellings. Solution is not intended to replace pressure treatment. If field cutting or drilling of wood is unavoidable, apply two coats as supplied by brush only. Do not spray or dip. Do not dilute. Mix thoroughly and stir frequently during

application. Wood to be treated should be clean and dry. Allow to dry before finishing or recoating. Use caution, as some paint finishes may cause bleeding. Do not use the preservative or treated wood where Copper Naphthenate may contaminate food, feed or drinking water. Do not apply to wood or fabric or any surface where prolonged skin contact may occur. May be used on greenhouse and garden timbers in contact with non-food producing plants only. Carrier solvent must be allowed to dry before introducing plants to prevent phytotoxicity. For untreated wood use WOOLMAN WOOD PRESERVATIVE.

USE LIMITATIONS: Do not use this product as an antifoulant agent or as a preservative for marine or fresh water structures such as boats or wharfs.

PRECAUTIONS: Keep out or reach of children. Do not use for treating food contact surfaces. Do not use or store near open flame or spark. Avoid breathing vapours. Harmful if swallowed or inhaled. Wear appropriate covering and clothing when applying this product. Wear rubber or plastic gloves when handling product. Wash thoroughly after use with soap and water and before eating or smoking. Keep container closed when not in use. Avoid skin contact, may cause skin irritation. Do not contaminate bodies of water. This product is toxic to fish.

FIRST AID:

INGESTION: If swallowed, do not induce vomiting. Call physician or poison control centre immediately.

EYE CONTACT: If splashed in eyes, flush with clean water for 15 minutes and contact physician.

SKIN CONTACT: In case of skin contact, remove the product from the skin promptly by washing with vegetable oil or hand degreaser and than wash thoroughly with soap and water.

TOXICOLOGY: Contains petroleum distillates and Copper Naphthenate. Treat as for ingestion of kerosene.

DISPOSAL AND STORAGE: Do not reuse empty container. Dispose of empty container in household trash. Store unused product out of reach of children. Do not store in areas subject to excessive heat.
