Later's Dog & Cat Repellent

Later's Dog & Cat Repellent should be used in conjunction with training. For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action.

DIRECTIONS:

INDOORS, to break your pet of undesirable habits, such as sleeping on furniture, rugs and other forbidden areas in your home, spray the article of furniture, rug, etc. lightly with the repellent so that the area or object is slightly moistened. Before spraying extensive areas of rugs, fabrics or plastics, test the effect of the repellent by first treating a small inconspicuous area. The repellent may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object

or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

OUTDOORS, to prevent your pet, or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreens, spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawns, etc. lightly every day or every other day with the repellent. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking odour. Re-apply as often as necessary until undesirable habits of your pet or stray animals are changed. Do not apply directly to foliage or shrubs or to ornamental, soft bodied plants.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Pressurized contents. Do not apply to food crops. Avoid contamination of food, feed, utensils, drinking water or any body of water. Wash hands with soap and water before eating or smoking. Do not use on animals. Do not apply to food crops. Do not store at temperatures above 50°C or place container on a radiator or stove, or where excessive temperatures may be encountered. Do not spray near heat or open flame.

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
