SCARBOROUGH, ONTARIO M1E 2M7

(R) DECEMBER 15, 1981

SURE CHLOR 12 DISINFECTANT is a high strength sodium hypochlorite solution which exhibits excellent algaecidal properties. Proper use of SURE CHLOR 12 DISINFECTANT in conjunction with a regular maintenance programme will give a sanitary pool free from harmful micro-organisms.

DIRECTIONS:

WATER CHLORINATION: Add SURE CHLOR 12 DISINFECTANT daily to maintain 0.6-1.0 parts per million of residual available chlorine (PPM CL 2). Daily charge depends upon air temperature and number of people in pool.

TOTAL DAILY	LITRES OF CHARGE WATER
12.5-25ML	1,000
125-250ML	10,000
325-625ML	20,000

625 -1.25L	50,000
1.25-2.50L	100,000
3.25-6.25L	250,000

WADING POOLS - Add 7ml SURE CHLOR 12 DISINFECTANT for every 225 Litres of water daily.

ALGAE: Add 187ml SURE CHLOR 12 DISINFECTANT for every 5000 Litres of water and circulate for at least 8 hours. If algae persists, use a weak solution of muriatic acid and scrub walls with brush. Do not use pool until available chlorine has fallen to 2.0 PPM CL 2.

PH CONTROL: Before adding to pool, adjust PH to 7.2 to 7.6 add muriatic acid if high add soda ash if low.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

STORAGE: Store away from sunlight and in a cool place

FIRST AID: If accidental contact occurs flush thoroughly with water. If swallowed, given one or two glasses of milk or warm water, or egg whites. Follow with emetic and repeat until vomit is clear. Call a Physician immediately and keep the patient warm.

Contains Sodium Hypochlorite. Avoid contact with skin and eyes. Do not mix with ammonia or toilet bowl cleaners, rust remover, household ammonia or acids and never pre-mix with other pool chemicals. Do not re-use container. Rinse empty container thoroughly with water before disposing.

USE AT ONCE: Stability Maximum 6 Months.
