NON-GAS AEROSOL. Delivers a quiet, even spray without using CFC or hydrocarbon propellents. All net contents are available for use, unlike a normal aerosol where a large percentage is propellant that is lost to the atmosphere and serves no other purpose than propelling product from the

container.

CONTAINER CAN BE HELD IN ANY POSITION, EVEN UPSIDE DOWN TO SPRAY INSECTS IN THE MOST DIFFICULT TO REACH AREAS.

DIRECTIONS: The spray will reach from 7 to 9 meters so you will be able to reach the insects high in your trees, eaves or ceilings. The best time to spray is on a calm day so the wind does not affect the Ajet spray® from reaching the pests.

Tent Caterpillars - build their nests in deciduous and evergreen ornamentals. They should be treated as soon as the nest building begins. Spray directly onto and into the web with the Ajet spray® as early as possible in 2-3 second blasts. The spray will be forceful enough to enable it to penetrate the web.

Spiders - Spray into the hiding places such as cracks and crevices and where spiders build their webs such as in your windows, corners, door frames, eaves, downspouts & outdoor storage areas. With the Ajet spray® you will be able to reach the webs and spiders in the high hard to reach areas being treated. Other insects listed on the front panel will also be killed.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not heat, puncture or incinerate container. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin, or clothing. May cause skin and eye irritation.

FIRST AID: If swallowed, do not induce vomiting. Call physician or a poison control centre immediately. In case of contact with the skin, wash with soap and water. If in eyes, flush with water 15 minutes, get medical attention.

TOXICOLOGICAL INFORMATION: Chlorpyrifos is a cholinesterase inhibitor. Atropine is antidotal. Obtain medical attention immediately, taking the pesticide container with you.

DISPOSAL: When container is empty, wrap and dispose in household garbage.
